Conventions used in this guide

In this user guide, we use the following symbols to indicate useful and important information:

This is a note. A note often gives additional information, such as what happens when you choose to do or not to do a certain action. A note also provides information that may only be applicable to some situations.

This is a tip. A tip gives you an alternative way to do a particular step or procedure, or lets you know of an option that you may find helpful.

This indicates important information that you need in order to accomplish a certain task or to get a feature to work properly.

This provides safety precaution information, that is, information that you need to be careful about to prevent potential problems.

Title	meta_info SAR notice for US SKUs
Identifier	GUID-AD8930A9-ABC5-41D0-ADB0-32FC6A586D82
Version	2

Important RF Notice

This device was tested for compliance with the applicable FCC and Industry Canada specific absorption rate (SAR) limits for radio frequency (RF) exposure during typical body-worn operations. To ensure that RF exposure levels remain at or below the tested levels, use a belt-clip, holster, or similar accessory that maintains a minimum separation distance of 1.0 cm between your body and the device, with either the front or back of the device facing towards your body. Such accessories should not contain any metallic components. Body-worn accessories that do not meet these specifications may not ensure compliance with applicable SAR limits and their use should be avoided.

Title	meta_info Note on recoverable data
Identifier	GUID-4D768730-2F54-4CC5-988F-C0C4102FA47B
Version	2

Important note on recoverable data

Files and other data that have been deleted, cleared, removed, or erased from your device may still be recoverable by third-party data recovery software. Even a factory reset may not permanently erase all data from your phone, including personal information.

Removing the SIM card

Make sure to switch off HTC One X before removing your SIM card.

1. Hold HTC One X face down and the top panel facing you.
2. Insert the tip of the SIM eject tool (or a small bent paperclip) into the small hole next to the SIM card tray slot. You should insert it at an angle.

3. Push the tip all the way into the hole until the SIM card tray ejects.
4. Pull the SIM card tray out.
5. Take the SIM card from the SIM card tray.

Title	hardware Charging the battery
Identifier	GUID-F7FD3AC2-2E3F-4245-A3D9-EB268051DDAE
Version	10

Charging the battery

Before you turn on and start using HTC One X, it is recommended that you charge the battery.

Use only the adapter and the USB cable that came with HTC One X to charge the battery. When the battery power is too low, make sure to use the power adapter to charge, not the USB cable connection with your computer.

1. Insert the small end of the USB cable into the USB connector.

2. Insert the other end of the USB cable into the power adapter.
3. Plug in the power adapter to an electrical outlet to start charging the battery.

- As a safety precaution, the battery may stop charging to avoid overheating.
- When you're using the Internet and charging the battery, HTC One X may become warmer. This is normal.
- To conserve energy, unplug the power adapter from the electrical outlet after you finish charging.

Title	setup Setting up your phone for the first time
Identifier	GUID-36953DFC-287F-4419-A89C-D9040177AB6F
Version	7.6.1

Setting up your new phone for the first time

When you switch on your new phone for the first time, you'll be asked to set it up. Walk through the on-device setup to choose your Internet connection, select how you want to set up your new phone, and more.

- Select **Set up from scratch** to set up your accounts and personalize your new phone from your computer using the HTC Get Started service.
Your phone shows you the URL of the HTC Get Started site and a pair code. On your computer's web browser, just go to the URL and enter the pair code to start your web setup. You need an HTC Account to save your accounts and settings on the Web and download them to your phone.
- If you already finished the HTC Get Started setup before turning on your new phone, just download your web setup. Choose to import content, and then select **Apply HTC Get Started setup**.
- If you have content from an old phone, you can choose to do a direct phone-to-phone transfer.
- To make it easier for you to back up and restore content from HTC One X to another HTC phone in the future, select **Back up phone daily**.

- To find out more about HTC Get Started and HTC Account, see the Help and FAQ on the HTC Get Started site (www.htcsense.com/help/).
- If you transferred content such as wallpaper and ringtone from an old phone, using HTC Get Started to personalize and download the same content types from the Web will change your settings on your new phone.
- Some features that need to connect to the Internet such as location-based services and auto-sync of your online accounts may incur extra data fees. To avoid incurring data fees, disable these features under Settings. For more information on location services, see [Turning location services on or off](#) on page 182.

Title	transfer_data Transferring from Android phone
Identifier	GUID-E9BF46A8-0F60-4616-944D-3570C4D84067
Version	3

Transferring content from an Android phone

On your old Android™ phone, download the HTC Transfer Tool and use it to transfer your content to your new HTC phone. The types of locally stored content on your old phone that the tool can transfer include contacts, messages, calendar events, web bookmarks, music, photos, and videos. Some settings can also be transferred.

- You need Android version 2.3 or later to use the HTC Transfer Tool on your old phone.
- If your old phone has Android version 2.2 or an earlier version, you need to use Bluetooth® transfer. For details, see [Transferring contacts from your old phone through Bluetooth](#) on page 17.

1. Do one of the following:
 - If you're setting up your new HTC phone for the first time, choose to transfer content, and then select **Transfer from old phone** on the Set up phone screen.
 - Go to Settings, and then tap **Transfer content**.
2. Choose whether to transfer from an old HTC Android phone or other Android phone.
3. Tap **Full transfer**.
4. Follow the steps shown on your new phone to download the HTC Transfer Tool from Google Play™ to your old phone, install it, and open the tool.

- When you see a PIN on your old phone, make sure the same PIN also appears on your new phone before you continue.

If the PIN code doesn't appear, this may mean that your old phone is unable to connect to your new phone. If this happens, tap **Unable to establish a connection** on your new phone to use Bluetooth for transferring contacts from your old phone.

- On your old phone, choose the types of content you want to transfer, and then tap **Start**.
- Wait for the transfer to finish.
- Tap **Done** on both phones.

Title	transfer_data Transferring content from iPhone
Identifier	GUID-597F56FB-A2F3-4792-AA5A-6EA5274BB915
Version	1

Transferring content from an iPhone

If you have an iPhone®, it's fast and easy to transfer your contacts, messages, and other content when you use HTC Sync Manager.

To find out how, see [Transferring iPhone content to your HTC phone](#) on page 151.

If you only need to migrate your contacts, you can also use Bluetooth transfer. For details, see [Transferring contacts from your old phone through Bluetooth](#) on page 17.

Title	transfer_data Transferring content thru Bluetooth
Identifier	GUID-AD67F60E-D966-4F9A-8037-5AB5AFE6B4A9
Version	8

Transferring contacts from your old phone through Bluetooth

Use Bluetooth to transfer contacts from an iPhone, a phone that has Android version 2.2 (or earlier version), or other types of phones. Depending on the capabilities of your old phone, you may be able to transfer not only contacts but also other data such as calendar events and text messages to your new HTC phone.

Use HTC Sync Manager to transfer more types of content from an iPhone.

1. Do one of the following:
 - If you're setting up your new phone for the first time, choose to transfer content, and then select **Transfer from old phone** on the Set up phone screen.
 - Go to Settings, and then tap **Transfer content**.
2. Choose whether to transfer from an Android phone, iPhone, or other phone types. If you chose to transfer from an Android phone, tap **Quick transfer**.
3. Choose your old phone's name and model.
4. On your old phone, turn Bluetooth on and set it to discoverable mode.
5. Follow the onscreen instructions on your old and new phones to pair them and start the data transfer.

Title	people Getting content into your phone
Identifier	GUID-8B9E9A9D-01BE-4998-B584-451A81049839
Version	15

Getting contacts and other content into HTC One X

Aside from the HTC Transfer Tool, there are other ways you can add contacts and other content to HTC One X.

Sync with your computer	Use HTC Sync Manager to sync contacts, documents, playlists, and more between HTC One X and your computer running a Windows® or Mac OS® operating system. You can also use it to transfer contacts, messages, and other content from an iPhone to your computer, and then to your HTC One X.
Gmail™	Google® contacts are imported to HTC One X after you sign in to your Google Account. You can also create more Google contacts right from HTC One X.
Social network accounts	Log in to your favorite social networks to sync contact information from them.
Microsoft® Exchange ActiveSync®	HTC One X syncs your work contacts from the Microsoft Exchange ActiveSync Server in your workplace.
Phone contacts	You can create contacts locally on HTC One X, if you don't prefer to store them on your online accounts.
SIM card	Copy all your SIM contacts to HTC One X.

Title	connections_computer Ways of getting media on or off the phone
Identifier	GUID-8BADD303-DCDC-408D-A83E-945A65619FA5
Version	7.1.2

Transferring photos, videos, and music between your phone and computer

There are two ways you can transfer your media from or to your computer.

- Connect HTC One X to your computer. Your computer will recognize it just like any removable USB drive, and you can copy your media between them.
- Download and use the HTC Sync Manager software on your computer. You can set it up to automatically get music, photos, and videos off HTC One X to your computer. You can also sync playlists from your computer to the phone.

If you have an iPhone, you can even connect it and transfer the camera roll photos to your computer. Then reconnect HTC One X and copy them over.

Tired of keeping copies of your media in several places? Use online storage services to put your media in one place so you can manage them anywhere — on your computer, HTC One X, and other mobile devices.

Go to Settings, and then tap **Accounts & sync** > **+** to check first what online storage accounts are available on HTC One X and sign in to the one you want to use.

Title	home_screen Home screen
Identifier	GUID-1455E8B2-8966-4E1A-9EFA-953BE676F6DD
Version	6.1.1

Home screen

Your Home screen is where you make HTC One X your own.

- After you've turned on and set up HTC One X for the first time (or after installing the latest software update and restarting the phone), you'll see the traditional Home screen style with panels that you can personalize with widgets, apps, and shortcuts. Swipe left or right to switch between these panels. You can also add more panels. For details, see [Personalizing](#) on page 68.

If you've installed the latest software update for HTC One X, you may find that some widgets have been changed, replaced, or removed in the new update.

- To switch to the Home screen style that has Feeds view, check for the HTC BlinkFeed™ notification in the status bar. If you see it, slide the Notifications panel open, tap the notification, and then select the **BlinkFeed** style.

Or you can go to Settings, and then tap **Personalize > Home screen style > BlinkFeed**.

Customize the Feeds view to show posts from your social networks, headlines from your favorite news media, and more. For details, see [Checking feeds on your Home screen](#) on page 37.

This Home screen style also has panels for adding widgets, apps, and shortcuts. Swipe left to go to the other panels. The maximum number of panels you can add are fewer than the traditional Home screen style.

If you were using the traditional Home screen style before and you want to use the same widgets, apps, and shortcuts, you need to add them to the other panels of the HTC BlinkFeed Home screen.

- You can change the apps on the launch bar at the bottom of the Home screen. See [Personalizing the launch bar](#) on page 73.

When you're on the other panels, press  to return to the main Home screen.

Title	settings Getting to know your settings
Identifier	GUID-FCB6B8AF-0676-43F5-9C0B-546372CB4B09
Version	10.1.1

Getting to know your settings

Want to change the ringtone, set up a Wi-Fi® connection, or add your accounts? Do this and more in Settings.

1. Open Settings either from the Quick settings panel or the All Apps screen.
 - With two fingers, swipe down from the status bar to open Quick settings, and then tap .
 - From the Home screen, tap  to switch to the All Apps screen, and then tap **Settings**.
2. Here are some of the basic settings you can change:
 - Tap the **On/Off** switch next to an item such as Wi-Fi to turn it on or off. Tap the item itself to configure its settings.
 - Tap **Sound** to set a ringtone, choose a sound profile, and configure incoming call sound settings.
 - Tap **Personalize** to change the Home screen wallpaper, lock screen style, and more.
 - Tap **Accounts & sync** to add and sign in to your different accounts, such as email, social networks, and more.
 - Tap **Security** to help secure HTC One X, for example with a screen lock.

Title	updates Software updates
Identifier	GUID-0A390C60-5BCC-4797-A3A3-AAF498AF86CC
Version	11

Updating your phone's software

HTC One X can check and notify you if there's a new update available. You can also manually check if there's an available update.

Title	updates Installing a software update
Identifier	GUID-D1C76115-30CB-4D1A-B091-5FC5DD3FFC12
Version	10

Installing a software update

When Internet connection is on and there's a new software update available, the update notification icon  appears in the status bar.

1. Slide the Notifications panel open, and then tap the system update notification.
2. If you don't want to download the update using your data connection, select **Update over Wi-Fi only**.
3. Tap **Download**.
4. When download is complete, select **Install now**, and then tap **OK**.

After updating, HTC One X will restart.

Title	updates Installing an application update
Identifier	GUID-9ABC2632-37F4-4456-B676-BEAE69C3E129
Version	3

Installing an application update

When Internet connection is on and there's an available update for your HTC or mobile operator apps, the update notification icon  appears in the status bar.

1. Slide the Notifications panel open, and then tap the update notification.
The Updates screen opens with the list of application updates to be installed.
2. Tap an item to view its details, and then tap .
3. When you're done reviewing the updates, tap **Install**. You'll be asked to restart HTC One X if needed.

Title	updates Checking updates manually
Identifier	GUID-37824768-209E-413F-AB5E-C3F9E67F5235
Version	7

Checking for updates manually

1. Go to Settings, and then tap **About**.
2. Tap **Software updates**. HTC One X checks if updates are available.

If you don't have Internet connection, you'll be prompted to turn on mobile data or connect to a Wi-Fi network. Once connected, tap **Check now** to check for updates.

Identifier	GUID-11AC1CBC-7093-494C-920E-AB78C96BD67F
Version	2

Features you'll enjoy on HTC One X

HTC One X gives you options for quickly setting up the phone, transferring content, as well as backing up the phone.

On HTC One X, enjoy checking personalized content with HTC BlinkFeed, taking shots with the camera, and more.

Easy phone setup and transfer

- If you just purchased HTC One X, use the HTC Get Started service to set up and personalize the phone from your computer, and just download your settings to it. See [Setting up your new phone for the first time](#) on page 14.
- Easily transfer your contacts, messages, music, photos, videos, and more from another Android phone to HTC One X. See [Transferring content from an Android phone](#) on page 15.

By using **HTC Sync Manager**, you can even migrate content from an iPhone. See [Transferring iPhone content to your HTC phone](#) on page 151.

Dynamic Home screen

With **HTC BlinkFeed**, personalize your Home screen with the information and updates that matter most to you. See a variety of content such as feeds about news and your

interests, social network updates, and more. The content is refreshed when you're connected to the Internet. See [Checking feeds on your Home screen](#) on page 37.

New way to share memories

Show off the excitement of your event. **Video Highlights** automatically selects the highlights of an event from your photos and videos to create a half-minute show with a musical theme. See [Viewing and editing Video Highlights](#) on page 62.

Outstanding camera features

- With **VideoPic®**, you can snap a picture while you're shooting video. See [Taking a photo while recording a video \(VideoPic\)](#) on page 55.
- Switch to **Sweep panorama** mode and pan the camera to capture a wide-angle view of the scenery. See [Taking a panoramic photo](#) on page 57.
- Use **Continuous shooting** mode to capture 20 consecutive shots (or more) of a subject in motion. See [Taking continuous camera shots](#) on page 56.
- By just tapping the shutter button, take three shots of your subject at different exposures and combine them into a nice, evenly exposed photo. See [Using HDR](#) on page 58.
- With **Variable Speed Playback**, add a cinematic flair to your videos by slowing down particular scenes. See [Changing the video playback speed](#) on page 61.

Entertainment on the go

- In our HTC Music app, you'll see a visual animation while you're playing a song. And if lyrics are available, they'll show onscreen.
- Use HTC Media Link HD (purchased separately) to wirelessly share your media from HTC One X to your HD TV. See [Sharing on a big screen](#) on page 125.

Dropbox integration with HTC Sense

Use Dropbox™ to access your photos, videos, and documents from HTC One X, your computer, and other mobile devices. When you sign in to your Dropbox account from HTC One X, you may be eligible to get an additional 23 GB of free Dropbox storage for two years. To find out how, see [Using Dropbox on HTC One X](#) on page 130.

- The 23 GB offer is available only on HTC phones that use HTC Sense® 4.0 or later and have Dropbox preinstalled.
- On HTC phones that don't have Dropbox preloaded, you can download it from Google Play and still enjoy Dropbox integration with apps such as Gallery and Mail.
- Additional terms and requirements may apply (including a subscription fee) after your two year trial ends.
- Dropbox is a third-party app and is not provided by or associated with HTC Corporation.

Basics

Title	controls Touch gestures
Identifier	GUID-5551D2F7-CE06-4A18-9CE0-B3501E15B771
Version	9

Touch gestures

Use touch gestures to get around the Home screen, open apps, scroll through lists, and more.

Tap

- Tap the screen with your finger when you want to select onscreen items such as application and settings icons, or press onscreen buttons.
- After you've scrolled down a long list or screen (in apps such as Mail and People), tap the status bar to jump straight to the top of your screen.

Press and hold

To open the available options for an item (for example, a contact or link in a webpage), just press and hold the item.

Swipe or slide

Quickly swipe your finger vertically or horizontally across the screen to go to other Home pages, scroll through documents, and more.

Drag

Press and hold your finger with some pressure before you start to drag. While dragging, don't release your finger until you have reached the target position.

Flick

Flicking the screen is similar to swiping, except that you need to swipe your finger in light, quicker strokes, such as when moving right and left on the Home screen, or flicking through a contacts or message list.

Press and flick

On the Home screen, you can easily move a widget or icon from one screen to another.

Press and hold the widget or icon with one finger, and flick the screen to the new location with another finger.

Slide with two fingers

In some apps, like Gallery, Messages, Mail, or the web browser, slide two fingers apart to zoom in when viewing a picture or text.

Slide two fingers together to zoom out of the picture or text.

Two-finger swipe

- Swipe down from the status bar using two fingers to access Quick settings.
- In some apps that have sorting, like Mail or People, swipe up or down using two fingers to scroll the screen. The screen displays the sorting order, and you can easily scroll to the information you want.

Three-finger gesture

- Swipe up using three fingers to share content such as photos, videos, and music from HTC One X to your TV or speakers.
- While using the HTC Car app, tap the screen with three fingers to activate the voice command mode.

- **HTC gestures** is enabled by default, which makes the three-finger gesture work only when sharing content or using HTC apps.
- You need to hook up the HTC Media Link HD (sold separately) to your HDMI TV to share content.

Version	1

Can't use multi-finger gestures in your apps?

That's because **HTC gestures** is enabled by default. This makes the three-finger gesture exclusive for sharing content or for use with HTC apps. You won't be able to use multi-finger gestures (gestures that use three fingers or more) for other purposes.

To use multi-finger gestures in games or musical instrument apps, clear the **HTC gestures** option in **Settings > Display, gestures & buttons** (or **Display & buttons**).

Title	controls Motion gestures
Identifier	GUID-5D044B1A-A232-482E-A05B-1531DA76AF6D
Version	2

Motion gestures

Use motion gestures to mute HTC One X, turn on the speakerphone, and more.

Flip to silence / flip for speakerphone

When a call comes in you can turn HTC One X over to mute it.

While in a call, turn HTC One X over to turn the speakerphone on for hands-free conversations or for conference calling.

Pick up to lower volume

In a business meeting or restaurant, pick HTC One X up when a call comes in to lower the ringtone volume.

Set volume to automatically rise while in your pocket or bag

On a noisy street and can't hear HTC One X ringing in your bag?

You can set HTC One X to recognize when it's in your bag or pocket and raise the ringtone volume so that you can hear it in noisy environments.

Rotate HTC One X for a better view

For many screens, you can automatically change the screen orientation from portrait to landscape by turning HTC One X sideways.

When entering text, you can turn HTC One X sideways to bring up a bigger keyboard.

Title	power Sleep mode
Identifier	GUID-A40BAB2C-11DB-430D-9304-00F73CD664D0
Version	6

Sleep mode

Sleep mode saves battery power by putting HTC One X into a low power state while the display is off. It also stops accidental button presses when HTC One X is in your bag.

Title	power Switching to Sleep mode
Identifier	GUID-5E4351D5-80D0-4C14-8911-276555A6FA55
Version	5

Switching to Sleep mode

Briefly press the POWER button to turn off the display and switch to Sleep mode. HTC One X also automatically goes into Sleep mode when it's left idle for a while.

You can change the time before HTC One X sleeps in the **Display, gestures & buttons** (or **Display & buttons**) settings.

Title	power Waking up from Sleep mode
Identifier	GUID-0B16C272-A91C-4072-9232-5F348F970924
Version	6

Waking up from Sleep mode

To wake HTC One X up manually, press the POWER button. If you've set up a lock screen, you need to unlock it.

HTC One X automatically wakes up when you have an incoming call.

Title	power Unlocking the screen - lock ring
Identifier	GUID-CF21B30C-2EFA-4BA3-95BB-D520623EBFCE
Version	3

Unlocking the screen

You can:

- Drag the lock icon or clock up.

- Swipe up from an empty space on the lock screen.

If you've set up a screen lock, you'll be asked to provide your credentials before HTC One X unlocks.

If you've set an event reminder or an alarm, you can snooze or dismiss the event or alarm right from the lock screen. Just drag ⌚ or ⓧ up.

Version	7

Selecting, copying, and pasting text

In apps such as the web browser and Mail, you can select and copy text, and then paste or share it.

1. Press and hold on a word.
2. Drag the start and end anchors to highlight the surrounding text you want to select.

You can use the magnifier to zoom in while selecting your text. To turn on the magnifier, go to **Settings > Accessibility**, and then select the **Show magnifier** option. You'll see the magnifier when you press and hold one of the text selection anchors.

3. After you have selected the text you want to copy, tap **Copy**.
The selected text is then copied to the clipboard.
4. In a text entry field (for example while composing an email), press and hold at the point where you want to paste the text.
5. Tap **Paste**.

To copy the address of a linked webpage, press and hold the link, and then tap **Copy link URL**.

Title	text_selection Sharing text

Sharing text

1. After you have selected the text you want to share, tap **Share**.
2. Choose where to paste and share the selected text, such as in an email message or social network status update.

Title	keyboard The HTC Sense keyboard
Identifier	GUID-F687D288-010C-4C10-AEAF-514680B3E76D
Version	2

The HTC Sense keyboard

Typing is fast and accurate with the HTC Sense™ keyboard.

- Turn on the Trace keyboard so you can type words by just sliding your finger from one letter to another. See [Using the Trace keyboard](#) on page 47.
- You can type words by just speaking. See [Entering text by speaking](#) on page 47.
- Word prediction also saves typing time. As you type, you'll see word suggestions that you can choose from. You can even add words, phrases, and shortcuts to the word prediction dictionary. See [Entering text with word prediction](#) on page 45.
- Just swipe right to access the numeric and symbol keyboard. Or swipe left to switch between languages.
- The keys have secondary numbers, punctuation symbols, or other characters that you can quickly insert without having to switch to the numeric and symbol keyboard.

For example, just press and hold a key on the first row to insert a number.

- Choose from a selection of smileys and insert one right from the keyboard.
- Show or hide navigational arrow keys on the keyboard. If you enable the arrow keys in Settings, they'll only appear on the portrait keyboard.

And since everyone has their own typing style, you can go to Settings to calibrate the keyboard so it learns how you type.

Title	keyboard Entering text
Identifier	GUID-9728DB86-2C28-403F-9142-F9D902100EF2
Version	6

Entering text

The onscreen keyboard becomes available when you tap a text field in an app. Enter letters and numbers, change the keyboard layout or language, and more.

Tap the keys on the onscreen keyboard to enter letters and numbers, as well as punctuation marks and symbols.

- Tap  to enter an uppercase letter. Tap twice to turn on caps lock.
- Press and hold keys with gray characters at the top to enter numbers, symbols, or accented letters. Some keys have multiple characters or accents associated with them.
- Swipe right to show number and symbol keys. To return to the main keyboard, swipe left.
- Press  to close the onscreen keyboard.

To open the keyboard settings, press and hold the comma key. Or go to **Settings > Language & keyboard > HTC Sense Input**.

Title	keyboard Selecting a keyboard layout
Identifier	GUID-1547482B-BB16-42B0-97D0-F1ADFA55554E
Version	8

Selecting a keyboard layout

Choose a keyboard layout that suits your typing style.

1. Go to Settings, and then tap **Language & keyboard**.
2. Tap **HTC Sense Input > Keyboard selection**.
3. Tap **Keyboard types**, and then select the keyboard layout that you want to use.

Title	keyboard Choosing multiple keyboard languages
Identifier	GUID-01CAB80B-704F-4602-82D8-99210E3C74D3
Version	8

Choosing and switching between keyboard languages

If multiple keyboard languages are available on HTC One X, you can choose which languages to enable in the onscreen keyboard.

1. Go to Settings, and then tap **Language & keyboard**.
2. Tap **HTC Sense Input**.
3. Tap **Keyboard selection**, and then choose the languages you want.

To change the keyboard language, do any of the following:

- Swipe left on the onscreen keyboard (not available if you're using trace keyboard).
- Tap the language key (for example, **EN**) until you see the language you want to use.
- Press and hold the language key, and then drag your finger to the keyboard language you want to use.

Title	keyboard Entering text with word prediction
Identifier	GUID-0BA90FFE-2D46-48C9-BA3A-0CCA60B90297
Version	6.1.1

Entering text with word prediction

Word prediction is enabled by default, and word suggestions are displayed as you type.

Tap **XT9** to switch between Multitap and XT9® predictive modes when using the Phone keyboard layout.

To enter text in word prediction mode, do any of the following:

- Tap the space bar to insert a highlighted word in the suggestion list.
- Tap a word from the suggestion list.
- Tap the arrow next to the suggestion list to see more choices.

You can also see suggestions for the next word after you've entered text. To enable this option, go to **Settings > Language & keyboard > HTC Sense Input**. Tap **Advanced**, and then select **Next word prediction**.

Title	keyboard Setting a second language for word prediction
Identifier	GUID-8E3ACEEA-5680-408D-8150-D013286E23B3
Version	8

Setting a second language for word prediction

You can set the word prediction to be bilingual. As you type, you'll get word suggestions in the languages that you've selected.

Bilingual prediction is available only when you're using a Latin-based keyboard.

1. Go to Settings, and then tap **Language & keyboard**.
2. Tap **HTC Sense Input > Keyboard selection > Bilingual prediction**, and then choose the language you want.

Title	keyboard Adding words and phrases to the word prediction dictionary
Identifier	GUID-F331458E-F2D0-41AE-86D4-DBA24148432D
Version	13

Adding words and phrases to the word prediction dictionary

Add frequently-used names, acronyms, and even phrases to the word prediction dictionary to easily find them in the suggestion list.

Type even faster when you create text shortcuts to words and phrases. Instead of typing "Talk to you later", save a few keystrokes by adding the ttyl shortcut. In your message or email, just type "ttyl", and then tap the spacebar to enter the complete phrase.

1. Go to Settings, and then tap **Language & keyboard**.
2. Tap **HTC Sense Input**.
3. Tap **Personal dictionary > +**.
4. Enter a word or phrase, and then enter its text shortcut. Be sure to remember this shortcut, including the uppercase and lowercase letters you've typed.
5. Tap **OK**.

While you're entering text using the Standard keyboard layout, tapping a suggested word that's not in the dictionary (usually the first word shown in the suggestion list) automatically stores it.

Title	keyboard Editing or deleting words and phrases in the dictionary
Identifier	GUID-3DB171A1-A670-466E-A1D3-78444668D246
Version	8

Editing or deleting words and phrases in the word prediction dictionary

1. Go to Settings, and then tap **Language & keyboard**.
2. Tap **HTC Sense Input**.
3. Tap **Personal dictionary**.
 - To edit a word, phrase, or shortcut, tap the item in the list.
 - To delete items from the dictionary, tap **⋮** > **Delete**. Select the words you want to remove, and then tap **Delete**.

Title	keyboard Entering text using the Trace keyboard
Identifier	GUID-BC0C097B-684E-4522-9538-C6B3C53CF2AE
Version	8

Using the Trace keyboard

Instead of tapping the keys on the onscreen keyboard, you can "trace" to type words.

You need to turn on the Trace keyboard in **Settings > Language & keyboard > HTC Sense Input**.

1. Slide your finger from one letter to the next to enter a word.
2. Lift your finger when the word is completed.

You can also do the following while using the Trace keyboard:

- Tap the space bar to insert a highlighted word.
- Tap a word from the suggestion list.
- Tap the arrow next to the suggestion list to see more choices.

Title	keyboard Entering text by speaking
Identifier	GUID-EEB9FD49-248F-4F92-9D39-A9C0FF1986F0
Version	7

Entering text by speaking

No time to type? Try speaking the words to enter them.

1. Tap an area where you want to enter text.
2. On the onscreen keyboard, press and hold .

3. When you see the microphone image, speak out the words you want to type.

To set the voice input language, tap the language bar above the microphone image. You can choose one or more languages. Available languages depend on the voice input languages supported by Google.

4. If a word doesn't match what you've spoken and it's underlined, tap the underlined word to delete it or to see more choices.
5. Enter punctuation marks by saying the name (for example, say "comma").

Checking battery history

Check how long you've been using HTC One X since the last charge. You can also see a chart that shows how long the screen has been on, and how long you've been using connections like the mobile network or Wi-Fi.

1. Go to Settings, and then tap **Power**.
2. Tap **History**.
3. If you've used HTC One X for a long time since the last charge, swipe left or right to scale the graph that details battery usage over time.

You can also slide two fingers together or apart to scale the graph.

Title	power Getting the battery to last longer
Identifier	GUID-EAE718BE-FBD5-4E26-962D-725A16F7FE7C
Version	11.2.1

Getting the battery to last longer

How long the battery can last before it needs recharging depends on how you use HTC One X. HTC One X power management helps to increase battery life.

In times when you need to extend the battery life more, try out some of these tips:

Check your battery usage

Monitoring your battery usage helps you identify what's using the most power so you can choose what to do about it. For details, see [Checking battery usage](#) on page 48.

Manage your connections

- Turn off wireless connections you're not using.

To turn on or off connections such as mobile data, Wi-Fi, or Bluetooth, go to Settings and tap their **On/Off** switches.

- Turn GPS on only when a precise location is needed.

To prevent some apps from using GPS in the background, keep the **GPS satellites** setting off. Turn it on only when you need your precise location while using navigation or location-based apps. Go to Settings and tap **Location** to turn this setting on or off. For more information on location services, see [Turning location services on or off](#) on page 182.

- If the **Sleep mode** option in **Settings > Power** is enabled, at low peak times, your phone will turn off the data connection after the screen has been off for 15 minutes and there's no network activity (no downloads, streaming, or data usage). The data connection resumes when you switch the screen back on.

Manage your display

Lowering the brightness, letting the display sleep when not in use, and keeping it simple helps save battery power.

- Use automatic brightness (the default), or manually lower the brightness.
- Set the screen timeout to a shorter time.
- Don't use a live wallpaper for your Home screen. Animation effects are nice to show off to other people but they drain your battery.

Changing your wallpaper to a plain, black background can also help a little. The less color is displayed, the less battery is used.

- Set the web browser to auto dim the screen while webpages load. Open the Internet app, and then tap  > **Settings** > **Accessibility** > **Dim screen during page loading**.

For more details, see [Settings and security](#) on page 228 and [Personalizing](#) on page 68.

Manage your apps

- Install the latest software and application updates. Updates sometimes include battery performance improvements.
- Uninstall or disable apps that you never use.

Many apps run processes or sync data in the background even when you're not using them. If there are apps that you don't need anymore, uninstall them.

If an app came preloaded and can't be uninstalled, disabling the app can still prevent it from continuously running or syncing data. In **Settings** > **Apps**, swipe to the **All** tab, tap the app, and then tap **Disable**.

Limit background data and sync

Background data and sync can use a lot of battery power if you have many apps syncing data in the background. It's recommended not to let apps sync data too often. Determine which apps can be set with longer sync times, or sync manually.

- In Settings, tap **Accounts & sync** and check what types of data are being synced in your online accounts. When the battery is starting to run low, temporarily disable syncing some data.
- If you have many email accounts, consider prolonging the sync time of some accounts.

In the Mail app, select an account, tap  > **Settings** > **Sync, Send & Receive**, and then adjust the settings under Sync schedule.

- When you're not traveling from one place to another, sync weather updates of only your current location, rather than in all of your named cities. Open the Weather app, and then tap  > **Edit** to remove unneeded cities.

- Choose widgets wisely.

Some widgets constantly sync data. Consider removing the ones that are not important from your Home screen.

- In Play Store, tap  > **Settings**, and then clear **Auto-add widgets** to avoid automatically adding Home screen widgets whenever you've installed new apps. Also tap **Auto-update apps** > **Do not auto-update apps** if you're fine with updating apps from Play Store manually.

Other tips

To squeeze in a little bit more battery power, try these tips:

- Tone down the ringtone and media volume.
- Minimize the use of vibration or sound feedback. In Settings, tap **Sound** and choose which ones you don't need and can disable.
- Check your apps' settings as you may find more options to optimize the battery.

Title	power Using power saver mode
Identifier	GUID-1942DA75-36E1-408A-847D-C8F204F66799
Version	10

Using power saver mode

Power saver mode helps to increase battery life. It reduces the usage of phone features that drain the battery such as the display and data connection.

1. With two fingers, swipe down from the status bar to open Quick settings.
2. Tap the **Power saver** tile to turn power saver mode on or off.

If you want to choose which phone features to conserve power for, tap  first before you turn power saver mode on.

If power saver mode's **Data connection** option is selected, HTC One X automatically disconnects from the mobile network after 15 minutes when the screen is off and the data connection is idle (no download activity, streaming, or data usage). It reconnects and then disconnects periodically when the data connection is idle to save battery power.

Keep in mind though that the **Sleep mode** option for the data connection in **Settings > Power**, when enabled, overrides power saver mode.

Identifier	GUID-67D68187-DE06-4200-884B-DD05FBF04C7E
Version	11.2.1

Viewing photos and videos in Gallery

Reminisce about good times. Use Gallery to view all your photos and videos. You can also trim videos, add photo frames and special effects, and more.

1. Open the Gallery app.
2. Tap ▼ to choose how you want to view your photos and videos, such as by album, event, or location.
3. Browse to an album or a group of photos.
4. Tap a photo or video to view it in full screen.

Title	gallery Viewing photos by event
Identifier	GUID-1D349710-1747-4172-989E-0C320F9BE23D
Version	6.1.1

Viewing photos and videos by event

View photos and videos based on when and where they were taken.

1. Open the Gallery app.
2. On the Gallery app's main screen, tap ▼ > **Events**. Photos and videos that you captured using HTC One X are grouped by time and location.
3. Tap a tile to view all the photos and videos taken during a specific event.

Title	gallery Viewing photos by location
Identifier	GUID-C33949DE-DA76-442E-A2B2-7859968FFD71
Version	3.1.1

Viewing photos by location

Using the Map view, you can view photos according to location.

Only photos with geo-tag info appear on the map.

1. Open the Gallery app.
2. On the Gallery app's main screen, tap ▼ > **Locations**.
3. Zoom out or pan across the map until a numerical location indicator appears. The number in the location indicator shows how many photos were taken in that area.
4. Tap the location indicator. The photos taken in the same area are displayed.

Want to know where you took a particular photo? While viewing the photo in full screen, tap anywhere on the screen, and then tap ■ > **Show on map**. (Show on map is available when you've enabled **Geo-tag photos** in Camera.)

Title	gallery Watching a video

Watching and trimming a video

You can capture a snapshot while watching a video, trim the video to remove unwanted scenes, and more.

1. In the Gallery app's Album or Events view, go to the video that you want to watch.
2. Tap the onscreen controls to play or pause the playback, adjust the volume, and more.

Tap ■ > **Select player** to share the video on your home network.

3. Tap 📷 to capture and save a still shot.
4. To trim the video, tap ■ > **Edit**.
5. Drag the two trim sliders to the part where you want the video to begin and end.

6. Tap  to preview your trimmed video.
7. Tap **Save**.

The trimmed video is saved as a new file. The original video remains unedited.

Title	gallery Changing the video playback speed
Identifier	GUID-CBD68BED-6DBB-4B85-9A87-F7056CCB74B7
Version	3

Changing the video playback speed

Want to add a cinematic flair to your videos by slowing down particular scenes? You can vary the playback speed of selected sections of a slow motion video.

You can only change the video playback speed of videos captured using the slow motion scene in the Camera app.

1. In the Gallery app's Album view, find the slow motion video you want to edit and tap .
2. Tap  to switch between normal and slow motion playback.
3. To adjust the playback speed of the video, tap  > **Edit** > **Adjust playback speed**.
4. Frame the sequence you want to slow down by moving the left and right sliders.
5. Choose how much to slow the sequence down.
6. Tap  to watch the result.
7. Tap **Save**.

The edited video is saved as a new file. The original video remains unedited.

Editing your photos

Make your pictures even better. Gallery has an array of editing tools that let you crop, rotate, apply and create photo effects, and much more to your photos.

1. Open the Gallery app.
2. Browse to the photo that you want to edit.

3. Tap the photo, and then tap **Edit**.
4. Do any of the following:
 - Tap **Effects** to apply a special effect filter to the photo.
 - Tap **Frames** to add a decorative frame to the photo.
 - Tap **Retouch** to make a portrait shot even better with red eye removal, skin smoothing, and more.
 - Tap **Transform** to rotate, crop, flip, or straighten the photo.
5. Tap  > **Save**.

Except for when applying rotation, edited photos are saved as copies of the original.

Title	gallery Adding custom photo effects
Identifier	GUID-351CCBEA-9D27-4C28-B7B8-3E8E26FD623A
Version	6

Adding custom photo effects

Are the existing photo effects not exactly what you are looking for? You can make your own photo effects in Gallery.

You can only add effects to photos that are stored locally.

1. Open the Gallery app.
2. Browse to the photo that you want to edit.
3. Tap the photo, and then tap **Edit**.
4. Tap **Effects**.
5. Press and hold the effect you want to customize and drag it to **Custom**.

You can also press and hold an effect and then drag it to a new location.

6. On the Custom Effects screen you can:
 - Make changes to the effect by adjusting filters such as exposure, saturation, white balance, and more.
 - Use the slider bars on selected filters to adjust the intensity of the effect.
 - Rearrange filters to modify the effect. Press and hold the filter you want to move. Then drag it to a new position.
 - Remove filters. Press and hold the filter you want to remove. Then drag it to **Remove**.
 - Tap **+** to add more filters and create a more complex effect.
7. Tap **Done** to apply the effects to your photo.

To save your custom effects for future use, tap **Save Preset**.

Setting up a face unlock on your phone

Set up face unlock if you want to unlock HTC One X using the front camera.

1. Go to Settings, and then tap **Security**.
2. Tap **Screen lock > Face Unlock**.
3. Tap **Set it up** and follow the onscreen instructions.

4. Choose a backup unlock method to use in case the phone doesn't recognize you.
5. Tap **Lock phone after**, and then specify the idle time before the screen is locked.

To help make face unlock more reliable and more secure, you can:

- Tap **Improve face matching** to train HTC One X to recognize your face in different situations, such as when you're wearing glasses or sporting a beard.
- Select the **Liveness check** option and you will be asked to blink to unlock the screen.

Identifier	GUID-B22E2C9A-0243-4D46-8966-03A02684B6C6
Version	8

Making a call with Smart dial

You can either dial a number directly, or use Smart dial to quickly place a call. Smart dial searches and calls a stored/synced contact or a number from your call history.

1. Open the Phone app.
2. Enter the phone number or first few letters of the contact's name to see the top matching contact.

If there is more than one match, you'll be told how many matches. For example, tap "8 MATCHES" to see all 8 matches.

3. Tap the contact you want to call.

- To check other phone numbers associated with the contact, tap  beside the contact name.
- If the phone number has an extension, tap  after connecting to the main line and then dial the extension number.

4. To hang up, tap **End Call**.

Title	phone Changing the Phone dialer layout

Identifier	GUID-C614DAFD-C8D2-41CD-940A-6280FD97FFAA
Version	1.1.1

Getting instant information with Google Now

Do you want to know the weather or your morning commute time before you start your day? Google Now delivers quick and up-to-date information that matters to you—all without the search.

Depending on your location, time of day, and previous Google searches, Google Now displays information cards that include:

- The day's weather and the weather forecast for upcoming days.
- The traffic conditions on your way to work or your commute back home.
- The directions and travel time to your next appointment.
- The next train or bus arriving at your platform or bus stop.
- Your favorite team's score and stats while you enjoy the game.

Title	google_now Setting up Google Now
Identifier	GUID-C8367A2E-3B6E-4E7E-9583-653F6DE84CEF
Version	4.1.1

Setting up Google Now

Before setting up Google Now:

- Make sure that you're signed in to your Google account.
- Turn location services on and make sure that you have an Internet connection. For more information on location services, see [Turning location services on or off](#) on page 182.

1. Open the Google app. Or press and hold .
2. The subsequent screens show examples of Google Now information cards. Tap **Next** until you reach the **Get Google Now!** screen.
3. Tap **Yes, I'm in**. Google Now information cards will start to appear on the Google search screen.
4. To see all available information cards, tap **Show more cards**.

More information cards will appear on the Google search screen as you use HTC One X to search the Web, create appointments, and more.

Title	google_now Changing card settings

Listening to music

Enjoy your favorite songs on HTC One X using the Music app.

When you open the Music app for the first time, you'll be asked if you would like to automatically download related content, such as album covers and artist photos, to HTC One X.

1. Open the Music app.
2. Tap ▼, and then choose if you want to browse by artists, albums, or other categories.

- 3. Tap a song to play.
- 4. Tap the onscreen icons to control music playback, repeat songs, and more.

Press and drag your finger across the progress bar to jump to any part of the song.

Turn shuffle on or off. (Shuffle is off when button is gray.)

Cycle through the repeat modes: repeat all songs, repeat current song, and don't repeat.

Open the full screen player (Music Channel) to view lyrics and music visualization while the song is being played.

(You can set whether the full screen player starts automatically or not in Music settings.)

Minimize the Now playing screen to continue browsing your music collection.

When you're listening to music and the screen display turns off, press POWER to turn the screen back on and control the music playback directly on the Lock screen.

Title	music Making your music sound better

About HTC Watch

With our HTC Watch™ online video service, shop for your favorite movies or TV series and enjoy watching them.

You can:

- Rent or purchase movies and TV shows. You'll need to create your HTC Watch account first.
- Preview trailers before purchasing your movies.
- Recommend a movie or TV show to your family and friends.
- Watch your purchased videos on up to five HTC devices that have access to HTC Watch using your same account.

HTC Watch is only available in selected countries.

Title	htc_watch Creating or signing in to your Watch account
Identifier	GUID-EA983FDC-E476-4970-BA90-112B4E087381
Version	5

Creating or signing in to your HTC Watch account

1. Open the Watch app.
2. Tap  > Settings > Account.
3. Create a new HTC Watch account, or directly sign in if you already have your account.

Title	htc_watch Renting or purchasing a video
Identifier	GUID-EDBB0C62-4597-463D-A954-1AB6FC12077B

Sharing on a big screen

Share what you're viewing on HTC One X onto a big screen TV.

- If you have a home theater system that's DLNA® compliant, you can share your photos, videos, movies, and music from HTC One X to your TV through your home Wi-Fi network.
- Don't have a DLNA setup at home? Don't worry. Just purchase the HTC Media Link HD and hook it up to your HDMI TV. You can then wirelessly share what you're viewing or listening on HTC One X to your TV.

Title	connected_media About HTC Media Link HD
Identifier	GUID-C3C8C364-DA91-4C4D-AEF6-6D9755CAE63D
Version	2

About HTC Media Link HD

You can plug in HTC Media Link HD to any TV with HDMI port, and use it to display content wirelessly to your TV.

HTC Media Link HD is sold separately.

Easy to set up and use

With just a three-finger swipe, connect HTC One X to HTC Media Link HD and share on the big screen.

Multitask with dual-screen display

HTC Media Link HD gives you dual-screen display when you're:

- Viewing a video in Gallery
- Playing music in the HTC Music app
- Watching a trailer, purchased movie, or rented show in HTC Watch

While you're playing media on the big screen, you can multitask and do other things such as take calls, browse the Web, or send email on HTC One X.

Turns your TV into a digital photo frame

Use the TV screen saver feature to store up to 30 photos from HTC One X on HTC Media Link HD, and display them as a slideshow on your TV.

To find out more about setting up HTC Media Link HD and using it with HTC One X, refer to the HTC Media Link HD user guide.

Version	4

Sharing your media on DLNA devices

If you'll be using a DLNA compliant TV or audio system, refer to its documentation on how to connect it to your home network.

1. Connect HTC One X to your home network via Wi-Fi.
2. Open the Gallery, HTC Watch, or Music app.
3. Locate the media stored on HTC One X that you want to share, and then tap it.
4. Do one of the following:

While viewing photos or videos in Gallery	Tap the screen to show the controls, and then tap > Select player .
While playing music in Music	Tap > Select player .
While playing a movie in HTC Watch	Tap the screen to show the controls, and then tap > Select player .

5. Choose the device on your network where you want to play the media.
6. Once connected to the other device, tap the onscreen controls to control playback, adjust the volume, and more.

For more information about DLNA, visit www.dlna.org.

Copying files to or from HTC One X

You can copy your music, photos, and other files to HTC One X.

Save and close your files before copying them from your computer to HTC One X, or vice versa.

1. Connect HTC One X to the computer using the supplied USB cable. You'll see options for viewing or importing files on the computer screen.
2. Choose to view files.
3. Copy the files from your computer to HTC One X, or vice versa.
4. After copying the files, disconnect HTC One X from the computer.

Title	settings Making more storage space
Identifier	GUID-261E145E-268E-428C-B3F9-849A347E21FA
Version	8.2.1

Making more storage space

As you use HTC One X, you'll accumulate data and fill its storage capacity over time. Here are some tips on how to increase storage space.

Run the storage wizard

Free up space in the phone storage by uninstalling apps and deleting files you no longer want to keep. In Settings, tap **Storage > Make more space**.

Store files in Dropbox

Photos, email attachments, and other documents can be stored in Dropbox and accessed anywhere you are. You can set the Camera app to automatically upload photos to Dropbox.

Dropbox is a third-party app and is not provided by or associated with HTC Corporation.

Manage photos and videos

- Set the Camera app to automatically upload to a photo-sharing site or online storage. You can retrieve them from the photo-sharing site or online storage when needed.

Using data services while uploading photos and videos may be costly. You may want to connect to Wi-Fi or disable auto upload of camera shots if you have a limited data plan.

- After taking continuous camera shots, keep only the best shot and discard the rest.
- After editing a photo or trimming a video, the original file is kept. You can delete original files or move them to online storage or to your computer.
- If you are only sending videos through MMS, use a lower resolution. High-resolution video takes up more space. In Camera settings, tap **Video Quality** to change the resolution.

Back up apps data

Keep only the most recent data from apps on HTC One X. You can back up calendars, contacts, and bookmarks or export text messages, and personal dictionaries.

Disable some apps

Apps, even if not used often, may be running in the background and downloading data into the phone storage. If the app cannot be removed, you can disable it. In

Settings, tap **Apps** and then swipe to **All**. Select the app you want to disable, and then tap **Disable**.

Title	settings Encrypting data on your phone - with storage conditions
Identifier	GUID-E5C1D068-06AB-44C5-AB7C-CB81689BEB32
Version	4.1.1

Encrypting data on HTC One X

You can encrypt data such as your online accounts, settings, music files and other media. After encryption, you will need to enter the screen lock PIN or password to turn on your phone and access the data.

- Set a lock screen PIN or password before encrypting your data.
- Fully charge the battery and keep HTC One X connected to the power adapter during encryption. The encryption process takes about an hour.
- You cannot undo encryption. If you want to return to an unencrypted phone, you must perform a factory reset.

1. Go to Settings, and then tap **Storage**.
2. Tap **Storage encryption** (or **Phone storage encryption**).
3. Tap **OK**.
4. Enter the lock screen PIN or password, and tap **Next**.
5. Tap **OK**.

Encryption starts and the progress is displayed. The phone may restart a few times.

When the encryption process is complete, enter your PIN or password.

Title	dropbox Using Dropbox on HTC device
Identifier	GUID-224A63B4-3CF2-41DB-B851-AE715F79E034
Version	8.2.1

Using Dropbox on HTC One X

When you use Dropbox, you'll have access to your photos, videos, and documents – on HTC One X, your computer, and your other mobile devices where you have Dropbox access.

On HTC One X, sign in to your Dropbox account so you can:

- Enjoy an additional 23GB of free Dropbox storage for two years.
- Access your photos and videos that are stored in Dropbox right from Gallery.
- No more large attachments when sharing by email. Simply send a link to your Dropbox files.
- View and edit Office documents that are stored in Dropbox.
- View PDFs that are stored in Dropbox.
- Save documents, such as from email attachments, directly to Dropbox.
- Check your remaining Dropbox storage space anytime.

- If the Dropbox app is not preloaded, you can download and install it from Google Play.
- Dropbox is a third-party app and is not provided by or associated with HTC Corporation.

Title	dropbox About free Dropbox storage offer
Identifier	GUID-06A8C40C-6E0D-4DDC-9959-20CED2D9AC57
Version	8

About the additional free Dropbox storage offer

The additional 23GB Dropbox storage is a special offer that's available on HTC phones using Android with HTC Sense 4.0 or later, and have Dropbox preloaded. This offer is available to both new and current Dropbox users.

- Additional terms and requirements may apply (including a subscription fee) after your two year trial ends.
- On HTC phones that don't have Dropbox preloaded, you can download it from Google Play and still enjoy Dropbox integration with apps such as Gallery and Mail.
- To get the additional 23GB of Dropbox storage free for two years, please sign in to your Dropbox account from HTC One X (and not from your computer or other non-HTC devices), and complete the getting started guide on the Dropbox website (www.dropbox.com/guide).
- If you don't have a Dropbox account yet, you can create a new account from HTC One X or from your computer at www.dropbox.com.
- This additional free storage is a one-time offer only. You're eligible to use this offer only on one HTC device.

Please visit the Dropbox website (<http://www.dropbox.com/help/249>) for full terms and conditions.

Dropbox is a third-party app and is not provided by or associated with HTC Corporation.

Ways of backing up files, data, and settings

Worried that you might lose important stuff on HTC One X? Back up HTC One X before you erase the storage, do a factory reset, or upgrade to a new phone.

HTC Backup

Use the built-in HTC Backup to back up your accounts, apps, settings, and more to the cloud so that it will be easier to restore them on HTC One X (after a factory reset) or newer phone. For details, see [Using HTC Backup](#) on page 145.

HTC Sync Manager

Use HTC Sync Manager to import music, photos, and videos to your computer. You can also sync locally stored contacts, calendar events, bookmarks, documents, and playlists to your computer. For details, see [About HTC Sync Manager](#) on page 149.

Other backup options

Separately back up other data and file types if they're not supported in HTC Backup and HTC Sync Manager.

In some apps, you can back up data to the storage on the phone so you can easily restore them after a factory reset.

If you're backing up data to the storage, don't choose to erase the storage when you do a factory reset.

- | | |
|-----------------|---|
| Messages | Back up your text messages to the storage on the phone, or save them as an email attachment. |
| Contacts | <ul style="list-style-type: none"> ▪ Save contacts and other personal data to your online accounts so you can just sync them when switching to another phone. ▪ If you have locally stored contacts in the People app, export them to the storage on the phone. |

Files	▪ Manually copy and paste files by connecting HTC One X to your computer as a disk drive. ▪ Upload files to online storage and services.
Other data	▪ If you added new words to your personal dictionary in the onscreen keyboard, back up the dictionary to the storage or save it as an email attachment. ▪ Check the other apps to see if they support exporting data to the storage.

Title	backup HTC Backup
Identifier	GUID-5185E9BA-D9BA-401A-B8D5-E59923DFAC5E
Version	3.3.1

Using HTC Backup

Save the time and frustration of re-creating your personalized HTC One X experience when you do a factory reset or you lose, damage, or buy another phone. On HTC One X, use HTC Backup to do a daily backup to the cloud so you can easily restore your content and settings next time.

HTC Backup uses your Dropbox storage to keep your content and settings. It can back up and restore the following:

Home screen settings	These include your categories and headlines in HTC BlinkFeed, widgets, and Home screen layout.
Accounts and passwords	HTC Backup stores the login credentials for many popular email and social network accounts, including Exchange ActiveSync, Microsoft Hotmail®, Flickr®, LinkedIn®, Evernote®, and POP/IMAP.
Apps and settings	These include your web bookmarks, personal dictionary, Wi-Fi networks, apps you've installed, grid size and sort order in the All apps view, and over 150 other settings.

Title	backup HTC Backup - Backing up

Backing up HTC One X

Turn on HTC Backup to do a daily backup of your phone over Wi-Fi. You can turn it on by selecting **Back up phone daily** while doing the on-device setup, or enable it in Settings.

1. Go to Settings, and then tap **Backup & reset**.
2. Tap **Backup account**.

3. Choose HTC Account as your backup account, and sign in to your account.

- You can sign in with your HTC Account or Facebook® account.
- If you're already signed into your Google Account, tap it to change your backup account to your HTC Account.

4. Sign in to Dropbox, if you haven't done so.

Tap **Turn on** to have your photos and videos uploaded to Dropbox as you capture them.

5. To do a daily backup, make sure the **Automatic backup** switch is on. You can also tap **Back up now** to manually back up your phone anytime.

Depending on the amount of content, doing a manual backup may incur additional data costs and take a long time. Using a Wi-Fi connection is recommended.

You'll see the most recent backup date and time under Backup history.

Title	backup HTC Backup - Restoring content
Identifier	GUID-B2C5DC48-85BA-4AE3-BD27-7A99FED64BE0
Version	3

Restoring your backup to your phone

If you've used HTC Backup before, you can restore your backup to HTC One X, or to a new HTC phone.

Depending on the amount of content, restoring your backup to your phone may incur additional data costs and take a long time. Using a Wi-Fi connection is recommended.

1. When you turn on a new HTC phone for the first time or after a factory reset, choose to restore content, and then select **Restore from HTC Backup** on the Set up phone screen.
2. Sign in using your HTC Account or Facebook account, depending on which one you used to back up your phone before.
3. Sign in to the same Dropbox account that you used to back up your phone, and choose to allow HTC Backup to access Dropbox. Your backup history will then be displayed.
4. Select a backup, and then tap **Next**.
5. Wait for your settings to be restored.
6. Tap **OK** to continue restoring your previously installed apps.

Your apps will be restored in the background, and you can track the progress via a notification in the status bar. Your apps will appear in the All apps view as they are installed. The All apps and Home screen shortcuts will be reorganized as in your

backup after all of your apps have been installed. You may continue using your phone while apps are being restored.

You can also go to Settings, and then tap **Backup & reset > Restore from HTC Backup**.

Before this, make sure you've already signed in to the same account that you used to back up your phone before. Also, if you've started changing settings or data on your phone, clear the **App data and settings restore** option before restoring your backup to avoid overwriting them.

Title	htc_sync_manager About HTC Sync Manager
Identifier	GUID-7A12A3A0-C8D5-4498-9E51-E9F564612DBA
Version	8

About HTC Sync Manager

HTC Sync Manager supports a computer running a Windows or Mac[®] operating system.

Here are the things you can do with HTC Sync Manager.

View and manage media on your computer

- Show music, photos, and videos from your computer and manage them in HTC Sync Manager.
- Import iTunes® and Windows Media® Player playlists from your computer to HTC Sync Manager.
- Play music, videos, and playlists using the built-in player.
- Browse and manage files on your phone (Mac only).

Transfer content

- Easily transfer iPhone photos, text messages, contacts, and more to your HTC phone.
- Import all music, photos, and videos from your HTC phone to your computer.
- Copy selected music, photos, or videos from your computer to your phone.
- Import documents from your computer to your phone.

Back up and restore

Back up your HTC phone to your computer so you can easily restore your backup to the same phone or to another phone.

Sync playlists and data

Sync music playlists and data such as contacts, calendar, and web bookmarks between your phone and your computer.

Title	htc_sync_manager Installing HTC Sync Manager on your computer
Identifier	GUID-50F8F646-9266-4E3D-903B-454F6C9A7946
Version	7

Installing HTC Sync Manager on your computer

- You need to have administrator rights if you're installing HTC Sync Manager on Windows Vista® or later versions.
- If you have problem in installing HTC Sync Manager, close all your running programs and reinstall. If the problem persists, temporarily disable your anti-virus program and try installing again.

1. Download the HTC Sync Manager installer from the HTC support site (htc.com/hsm/).
2. Launch the installer and follow the onscreen instructions.
3. Connect your phone to your computer using the supplied USB cable. HTC Sync Manager opens.

If you disabled your anti-virus program, make sure to turn it back on after installing HTC Sync Manager.

Title	htc_sync_manager Transferring iPhone content
Identifier	GUID-0B2A3C40-3303-49D6-BEA7-7D45AE8B6DAF
Version	5

Transferring iPhone content to your HTC phone

With HTC Sync Manager, easily transfer iPhone content such as contacts, messages, wallpaper, camera photos, and more to your HTC phone.

You need to use iTunes 9.0 or later to back up your iPhone content first to your computer.

1. Connect your iPhone and your HTC phone to your computer.
2. In HTC Sync Manager, click **Home > TRANSFER & BACKUP**.
3. Click the **Get Started** button.
4. If you haven't used iTunes to back up your iPhone content to your computer, please do so before proceeding.
5. Click **Next**.
6. Select your iPhone backup file, and then click **OK**.

7. Select the types of content you want to transfer to your HTC phone.

You can choose whether to replace the content on your HTC phone with the iPhone content.

8. Click **Start**.

Title	htc_sync_manager Copying or removing media on your phone
Identifier	GUID-F79875DF-2E63-48C6-84D1-3C3923CA89E7
Version	6

Copying or removing media on your phone

One way to copy media files from your computer to your phone is to use Windows Explorer (or the Finder® application on your Mac computer). Another way is to use HTC Sync Manager.

With HTC Sync Manager, you can copy music, photos, videos, entire albums, and playlists.

1. Connect your phone to your computer. Media that have already been copied to your phone will have the  icon on their thumbnails.
2. Click an item to select it. Or, to select several media for transfer, do one of the following:

Select several items	On Windows: Hold down the CTRL key, and then click each item. On Mac: Hold down the COMMAND key, and then click each item.
Select all items	On Windows: Press CTRL + A. On Mac: Press COMMAND + A.
Select consecutive items	Hold down the SHIFT key, and then click the first and last items. Or drag your mouse over the range of items you want to select.

3. Click one of these icons:

Copy the selected media to your phone.

Remove the selected media from your phone.

Title	htc_sync_manager Batch importing all media from phone to PC
Identifier	GUID-0A177345-57F5-4FA2-95C7-03BB0B4085D8
Version	8

Batch importing all music, photos, and videos from your phone

You can set HTC Sync Manager to batch import all media files from your phone to your computer automatically. If you've already done a batch import before, HTC Sync Manager will check for new media and import new ones only.

1. Connect your phone to your computer.
2. To import all music, click **Music > SETTINGS**, and then select **Copy all music from phone**.
3. To import all photos and videos, click **Gallery > SETTINGS**, and then select **Import photos and videos from phone**.

If you're using iPhoto® on a Mac computer, you can also select **Launch iPhoto and import photos to iPhoto**.

Select **Delete photos and videos from phone after importing** if you want to remove the photos and videos from your phone after the transfer.

4. Click  if this is your first time to batch import. To allow HTC Sync Manager to automatically import files and sync data next time, click **Home > SYNC SETTINGS**, and then select **Sync automatically whenever the phone connects**.

Title	htc_sync_manager Importing documents from PC to phone automatically
Identifier	GUID-A2EC64EF-4EBA-4A41-B7CC-111FBAC32F25
Version	8

Importing documents from your computer to your phone automatically

Want to bring documents with you on your phone? Set HTC Sync Manager to automatically import documents from a folder on your computer to your phone.

1. Connect your phone to your computer.
2. Click **Files > SYNC SETTINGS**.
3. Select the **Sync documents from the following locations on this computer** option.
4. Click **Add**, and then choose the folder that contains the documents you want to import to your phone. You can add several folders.
5. Click  if this is your first time to import. To allow HTC Sync Manager to automatically import files and sync data next time, click **Home > SYNC SETTINGS**, and then select **Sync automatically whenever the phone connects**.

Title	htc_sync_manager Data and apps you can sync
Identifier	GUID-D7C2497F-D4EA-4671-8F81-D48FA7D4B8AC
Version	1

Data and applications that HTC Sync Manager can sync with

Set up HTC Sync Manager to sync contacts, calendar events, and web bookmarks between your phone and your Windows or Mac computer.

You can sync your phone with the following applications on your computer:

On Windows	On Mac
Outlook® 2003 or later version	Apple® Contacts, Apple Address Book, Apple Calendar, Apple iCal®, or Outlook 2011 for Mac
Internet Explorer®, Firefox®, or Google Chrome	Safari® or Google Chrome

If you'll be syncing with Firefox or Google Chrome, close the browser first before syncing.

Title	htc_sync_manager Syncing data between phone and computer
Identifier	GUID-5EAC3AB7-6853-4328-A6B6-BC67EAE2C042
Version	4

Syncing data between your phone and your computer

1. Connect your phone to your computer.
2. In HTC Sync Manager, click **Home > SYNC SETTINGS**.
3. Select the check boxes of the data types you want to sync.

- Click **Settings** on the different data types to customize sync settings.

People	- Choose the contacts application on your computer that you want to sync with your phone. - If there's conflicting contact info on your phone and your computer, choose which data you want to keep.
Calendar	- Choose the calendar application on your computer that you want to sync with your phone. - Choose from when you want to start syncing calendar events. - If there are conflicting appointments on your phone and your computer, choose which data you want to keep.
Bookmark	Choose the web browser on your computer that you want to sync with your phone.

- Click  if this is your first time to sync. To allow HTC Sync Manager to auto sync your data and import files (such as documents and media) next time, click **Home > SYNC SETTINGS**, and then select **Sync automatically whenever the phone connects**.

When you sync bookmarks for the first time, a favorites folder named HTC bookmarks will be created on your computer's web browser. This folder contains the bookmarks from your phone. If you have bookmarks on your computer that you want to sync with your phone, make sure to save them in the HTC bookmarks folder.

- Only the contact and calendar fields that are available on your phone will be synced with your computer.
- If there are conflicting bookmarks on your phone and your computer, HTC Sync Manager always keeps the bookmarks from your computer.

Version	8

Resetting HTC One X (Hard reset)

If HTC One X has a persistent problem that cannot be solved, you can perform a factory reset (also called a hard reset or master reset). A factory reset reverts the phone back to its initial state — the state before you turned on the phone for the first time.

The following will be removed from the phone when you do a factory reset:

- Your Google Account
- All accounts you've added in **Settings > Accounts & sync** and the data associated with these accounts
- Personal data that you've created or synced to the phone such as your profile, contacts, messages, email, calendar events, and more
- System and application data and settings
- Downloaded apps

Files such as your music, photos, videos, and documents will also be deleted if you select the **Erase all data** option.

Be sure to back up any data and files you want to keep before you do a factory reset.

A factory reset may not permanently erase all data from your phone, including personal information.

Title	reset Performing a factory reset via settings

Title	people Finding people
Identifier	GUID-5695AE6D-E8E3-4934-A65B-ED737E5158BF
Version	2

Finding people

Search for contacts stored on HTC One X, your company directory if you have an Exchange ActiveSync account, or social networks you've signed into.

1. Open the People app.
2. On the People tab, you can:
 - Find people in your contacts list. Tap the Search people box, and then enter the first few letters of the contact name.
 - Find people on your company directory. Tap the Search people box, enter the first few letters of the contact name, and then tap **Search contacts in your Company Directory**.
 - Search for people you know on your social networks. Tap  > **Settings** > **Find people you know on**, and then select the social networks you're signed in to. The People app then uploads your contacts to the selected social networks to help you find friends.

Aside from searching for a contact by name, you can search using a contact's email address or company name. On the People tab, tap  > **Settings** > **Search contacts by**, and then choose a search criteria.

Title	people Setting up your profile
Identifier	GUID-97E7AFAF-0DD9-4C0F-9DD3-02C35B1FD582
Version	12

Setting up your profile

Store your personal contact information to easily send it to other people.

1. Do one of the following:
 - On the People tab, tap **My profile**.
 - With two fingers, swipe down from the status bar to open Quick settings. Tap the **Me** tile (or your contact name, if you've already signed in to your Google account), and then tap **Me** or your contact name again.
2. Tap **Edit my contact card**.
3. Enter or edit your name and contact details.
4. Tap  (or the current photo) to change your contact photo.
5. Tap **Save**.

Aside from your contact details, your profile also shows updates you've posted on your social networks and your online photo albums.

Title	people Adding a new contact
Identifier	GUID-C4272E5F-50AE-4AC1-9CED-39547F9C5188
Version	11

Adding a new contact

1. On the People tab, tap **+**.
2. Tap the **Name** field, and then enter the contact name.

Tap  if you want to separately enter the contact's first, middle, and last name. Depending on the contact type, you may also be able to add other info such as a name suffix (for example, "Jr.").

3. Select the Contact type. This determines which account the contact will sync with.

Some fields may not be available when you're adding contacts to a SIM card.

4. Enter the contact information in the fields provided.
5. Tap **Save**.

When you tap the added contact on your contacts list, you'll see the contact information and your exchange of messages and calls. Depending on the information

that you've added to the contact (such as an email address), you'll also be able to see the contact's social network updates, events, and photos.

Version	1

Adding an email account

Set up additional email accounts such as another Microsoft Exchange ActiveSync account or an account from a Web-based email service or email provider.

If you're adding a Microsoft Exchange ActiveSync or a POP3/IMAP email account, ask your network administrator or email service provider for additional email settings that you may need.

1. Open the Mail app.
2. Tap  > **Add account**.
3. Select an email account type from the list of email providers. Otherwise, tap **Other (POP3/IMAP)**.
4. Enter the email address and password for your email account, and then tap **Next**.

Some email accounts allow you to set the sync schedule. By default, HTC One X uses Smart Sync to save battery power. See [What is Smart Sync?](#) on page 181.

5. Enter a name for your email account, and then tap **Finish setup**.

Title	mail What is Smart Sync
Identifier	GUID-10A4F2FA-B617-40E7-A7A4-5B6713CC4FC9
Version	1

What is Smart Sync?

Smart Sync automatically extends the sync time the longer the Mail app is inactive. Set your email account to Smart Sync when you don't need to check new email messages frequently. Smart Sync helps save battery power.

If you want to receive email messages as they arrive, select another peak and off-peak sync schedule in the email account's **Sync, Send & Receive** settings.

About Google Maps

Google Maps™ lets you track your current location, view real-time traffic situations, and receive detailed directions to your destination.

It also provides a search tool where you can locate places of interest or an address on a map, or view locations at street level.

- To find your location with Google Maps, you need to enable location sources.
- The Google Maps app does not cover every country or city.

Title	google_maps Getting around maps
Identifier	GUID-8139AF7D-87F4-471D-877E-21BB2BA9862A
Version	7

Getting around maps

When you open Google Maps, you can easily find your location on the map or check out nearby places by panning and zooming in and out on the map.

1. Open the Maps app.
2. Tap  to show your current location. The blue marker  or  shows your current location on the map.

- 3. Navigate the map using finger gestures.
 - Slide your finger on any direction to pan.
 - Double-tap the map or slide two fingers apart over an area to zoom in.
 - Double-tap the map with two fingers or slide two fingers together over an area to zoom out.
 - Press and hold an area with two fingers and then drag your fingers in a circular motion to rotate the map.
 - Press and hold an area with two fingers and then swipe down to see an angled view of the map. Swipe up to return to overhead view.
- 4. Tap  to turn Compass mode on. In Compass mode, the map orients itself depending on the direction you're facing. To exit Compass mode, tap .

Add a map view to see more information overlaid on the map. Tap , and then tap a map view such as **Traffic** or **Public transit**. To remove the map view, tap it again on the map view list.

Version	10

Finding and installing an app

When you install apps and use them on HTC One X, they may require access to your personal information or access to certain functions or settings. Download and install only apps that you trust.

Be cautious when downloading apps that have access to functions or a significant amount of your data on HTC One X. You're responsible for the results of using downloaded apps.

1. Open the Play Store app.
2. Browse or search for an app.
3. When you find the app that you like, tap it and read its description and user reviews.
4. To download or purchase the app, tap **Install** (for free apps) or the price button (for paid apps).
5. Tap **Accept**.

Apps sometimes get updated with improvements or bug fixes. To automatically download updates, after installing tap **⋮** > **Auto-update**. Or if you downloaded an app when connected to a Wi-Fi network, tap **OK** when asked to auto-update apps when on Wi-Fi.

To open the app, go to the All apps view and tap the app.

Title	android_market Restoring apps
Identifier	GUID-DE853554-A90F-4689-875C-AF0379648B47
Version	5

Restoring apps from Google Play

Upgraded to a new phone, replaced a lost one, or performed a factory reset? Restore apps that you previously downloaded.

1. Open the Play Store app.
2. Tap **⋮** > **My apps**.
3. Swipe to the All tab, and then tap the app you want to restore.
4. Install the app.

For more details, refer to the Google Play help.

Title	browser Downloading apps from the web
Identifier	GUID-E9B2AE2A-B1D3-438D-BCB4-CF182D55933E
Version	1.1

Downloading apps from the web

You can download apps directly from websites.

Apps downloaded from websites can be from unknown sources. To help protect HTC One X and your personal data, we strongly recommend that you only download from websites you trust.

1. Open the browser, and then go to the website where you can download the app you want.
2. Follow the website's download instructions for the app.

Before you can install the downloaded app, make sure that you've set HTC One X to allow installation of third-party apps in **Settings > Security > Unknown sources**.

After installing the app, make sure to go back to **Settings > Security** and clear the **Unknown sources** option.

Title	apps Uninstalling an app
Identifier	GUID-FC4A7FDD-4270-4DBA-954F-CAB9C75DEB25
Version	3.1.1

Uninstalling an app

If you no longer need an app that you've downloaded and installed, you can uninstall it.

Most of the preloaded apps cannot be uninstalled.

From the All apps view, press and hold the app you want to remove, and then drag it to **Uninstall**.

If you purchased an app in Play Store, you can uninstall it for a refund within a limited time. To know more about the refund policy for paid apps, refer to the Google Play help.

Title	clock Using the Clock
Identifier	GUID-27EAF140-C77B-4F0B-8230-852196D208C4
Version	2

Using the Clock

Get more from the Clock app than just the regular date and time. Use HTC One X as a world clock to see the date and time in cities across the globe. You can also set alarms or track your time using the stopwatch or timer.

Title	clock Setting the date and time manually
Identifier	GUID-F3D8AC3A-7CAB-48B4-AFE5-9044B9EBECE2
Version	7

Setting the date and time manually

1. Open the Clock app.
2. On the World Clock tab, tap  > Local time settings.
3. Clear **Automatic date & time** and **Automatic time zone**, and then set the time zone, date, and time as required.

Title	clock Setting an alarm
Identifier	GUID-3A528157-6943-4D4C-9873-5C403880F327
Version	10

Setting an alarm

You can set up one or more alarms.

1. Open the Clock app.
2. On the Alarms tab, select the check box of an alarm and then tap that alarm.
3. Under Set alarm, use the scroll wheels to set the alarm time.

4. If you want the alarm for multiple days, tap **Repeat**.
5. Tap **Done**.

- To turn off an alarm, clear the check box of that alarm.
- If you need to set more than three alarms, tap **+**.

Title	weather Checking Weather
Identifier	GUID-57EE6E42-83D2-422E-98D7-5EC447734375
Version	10

Checking Weather

Use the Weather app and widget to check the current weather and weather forecasts for the next few days. In addition to your current location, you can view weather forecasts for other cities around the globe.

1. Open the Weather app. You'll see the weather where you are.
2. Swipe to the Hourly and Forecast tabs to view the forecasts in your current location.
3. To check the weather in other cities, tap ▼, and then select the city you want.
4. To add more cities, tap **+** and then enter the location.

Your settings in the Weather app also control the weather information that is shown in the Clock and Calendar.

Title	calendar Viewing the Calendar
Identifier	GUID-E398B99C-0C77-40C2-AA72-F671B7CAD5C5
Version	8

Viewing the Calendar

Use the Calendar app to view your events, meetings, and appointments. If you've signed into your online accounts, related events will also appear in Calendar.

1. Open the Calendar app.
2. Tap ▼, and then choose a calendar view.

In any calendar view, return to the current date by tapping the today button beside **+**.

Title	calendar Using month view
Identifier	GUID-2AA45DEF-3894-4379-9C9D-CF958EAA9BB2
Version	5

Month view

In month view, you will see markers on days that have events. Upcoming events for the day are also shown at the bottom of the screen.

- Swipe left or right across the screen to view succeeding or previous months.
- Tap a day to view the events for that day.
- Press and hold a day to see more options.

Title	calendar Using day and agenda views
Identifier	GUID-D3ED1506-F32A-4715-868C-DC3F6BE381D6
Version	14

Day and agenda views

Day view shows your day's schedule and weather forecast for the next few days, while agenda view gives a quick glance of all your day's events.

- Swipe left or right across the screen to view succeeding or previous days.
- Tap an event to view its details.
- If the event is a contact's birthday or anniversary, tap it to send a greeting.

Need to see the event time in another time zone? In Day view, tap  > **Select 2nd time zone** > **Choose location**, and then enter the city name.

Title	calendar Using week view
Identifier	GUID-76EBC780-02AF-4E17-88EC-38AE9AC49E4A

Version	12

Scheduling or editing an event

You can create or edit events on HTC One X, and also sync events with your Google or Exchange ActiveSync calendars.

Editing events is not supported for all accounts.

1. Open the Calendar app.
2. On any Calendar view, do one of the following:

Create an event Tap **+**. Tap **▼**, and then select the calendar you will add the event to.

Edit an event View an event, and then tap .

3. Enter and set the event details.
4. To invite contacts from your Google or Exchange ActiveSync account, tap .
5. Tap **Save**.

If you've invited people to the event, tap **Send** or **Send update**.

Title	calendar Checking your schedule for an event
Identifier	GUID-0E6A5BC2-4FBA-439D-BB27-4F482B4ABA67
Version	2

Checking your schedule for an event

Avoid juggling multiple meetings at the same time. In Calendar, you can check your appointments to see if a new event would conflict with your schedule.

1. When creating or editing an event, tap **Check calendar**.
2. Press and hold the event box, and then drag it to an available time slot.
3. Drag the top and bottom nodes to adjust the event's time duration. You'll see a message if there are conflicts with other scheduled events.
4. Tap **Done** to return to the event screen, and then save your event.

Title	calendar Choosing which calendars to show
Identifier	GUID-EC53C53B-899F-4C88-A7C5-D04B032AA13C
Version	9

Choosing which calendars to show

1. In any calendar view, tap  > **Accounts (All calendars)** or **Accounts (Multi-calendar)**.
2. Select or clear an account you wish to show or hide.
If you have multiple calendars under an online account, tap  to select the items to include.

- Calendars are synced on HTC One X, even if they are hidden.
- You can also show or hide tasks that you've created on HTC One X.

Title	calendar Why aren't my calendar events showing up
Identifier	GUID-C5D878A7-18C6-4DF3-9CD0-604A5F77D3BF
Version	3

Why aren't my calendar events showing up?

If you can't find events from your email accounts or social networks in Calendar, check whether the Calendar sync is turned on in Settings.

1. Go to Settings, and then tap **Account & sync**.
2. Tap an account type. If multiple accounts are supported (such as Exchange ActiveSync), tap the account you want to sync.
3. Select **Calendar**, and then tap  > **Sync now**.

Title	calendar Sharing an event
Identifier	GUID-379F487F-6FE9-4543-9991-E4505D97BAFD
Version	5

Sharing an event

You can share a calendar event as a vCalendar using Bluetooth or by sending it as a file attachment with your email or message.

1. Do one of the following:
 - While viewing an event, tap  > **Forward**.
 - In day, agenda or week view, press and hold an event and then tap **Forward**.
2. Choose how you want to send the event.

Title	calendar Accepting or declining a meeting invitation
Identifier	GUID-95FB8F8F-FF8A-4851-9368-5A1CEE5D4EA9
Version	7

Accepting or declining a meeting invitation

Switch to Invites view to see meeting invitations which you have not yet accepted or declined.

You must set up an Exchange ActiveSync account to receive meeting invitations in Calendar.

1. Open the Calendar app.
2. Tap  > **Invites**, and then tap a meeting invitation.
3. Accept, decline, or tentatively accept the invitation, or propose a new time.

Tap  to choose from more options, such as moving the invitation to a folder.

Title	calendar Dismissing and snoozing reminders
Identifier	GUID-A2368489-EB26-415C-9DFC-46D0855BEC46
Version	5

Dismissing or snoozing event reminders

If you have set at least one reminder for an event, the upcoming event icon  will appear in the notifications area of the status bar to remind you.

1. Slide the Notifications panel open.
2. If the notification shows that there are multiple reminders, tap it to see all the reminders. You can then choose to snooze or dismiss them.
3. If you see a single event notification, spread your two fingers on the notification to expand it. You can then:
 - Tap **Snooze** or **Dismiss**. Or drag the notification left or right to dismiss it.
 - Tap **Send mail** to send a quick response to the meeting attendees.

To edit the preset quick responses or add your own, open Calendar, and then tap **⋮** > **Settings** > **Quick response**.

If you don't want to dismiss or snooze the calendar reminders, press  from the Notifications panel to keep them pending in the notifications area of the status bar.

Title	youtube Watching videos on YouTube
Identifier	GUID-010E8008-3B28-49A9-B35A-0FD772FAE983
Version	8

Watching videos on YouTube

Check out the latest video sensations using the YouTube app.

1. Open the YouTube app.
2. Browse or search for a video.

3. When you find the video that you like, tap it.

Want to watch the video at a later time instead? Tap  > **Add to Watch later**. You can access the video again from your account profile's Watch later list.

4. While watching a video, you can:
- Turn HTC One X sideways to watch the video in full screen.
 - Tap the video screen to pause or to resume playback, or drag the slider to jump to a different part of the video.
 - Scroll down the video information panel to see related videos and comments from other viewers.
 - Touch  to minimize the video screen and browse other videos. To close the video thumbnail, swipe it left or right.

Tap the **YouTube** icon to return to the previous screen.

Title	youtube Preloading videos
Identifier	GUID-F7B7793A-77D0-4E3B-AD89-DFE970F1C8A3
Version	3

Preloading videos

Set the YouTube app to preload videos so that you can watch them without interruptions. Videos are preloaded when HTC One X is being charged and is connected to a Wi-Fi network.

For more information about preloading videos, refer to the YouTube help.

1. Open the YouTube app.
2. Tap  > **Settings** > **Preloading**.
3. Select what type of videos to preload.

The videos are preloading when  appears on Watch later screen or on the channel you subscribed to. The icon changes to  when the videos are ready.

Version	8

Composing a note

1. With a notebook opened, tap .
2. Type in a note title.
3. Compose your note:
 - Tap on the note, and then start typing in your text.
 - Tap  to start audio recording. Tap  to stop recording.
 - Tap  > **Attach** and choose a file type.
 - Tap  to create a drawing and insert it in your note.
 - Tap  to take a photo and insert it in your note.

To resize the photo, image, or drawing that you've attached to your note, press and hold the item, and then tap **Resize**.

4. Tap  > **Save**.

To link a note to an event, tap  > **Calendar**.

Title	notes Creating a drawing
Identifier	GUID-C422526E-18CA-4346-91B1-6DCCDC125B0A
Version	6

Creating a drawing

You can create a drawing, scribble, or illustration and include it in your note.

1. With a note opened, tap .
2. Choose a color to use.
3. Draw on the blank area using your fingertip.
4. If you need to erase a part of the drawing, tap  and then move your finger left and right on the area that you want to erase. You can also tap  > **Undo** to erase the last stroke you made.
5. To insert the drawing in your note, tap  > **Save**.

Title	notes Copying and pasting an image
Identifier	GUID-B6E26E8A-6A57-4C9A-A4EC-EBE24404ECD0
Version	1

Copying and pasting an image

In apps such as Internet, you can select and copy an image and paste it in the Notes app.

1. While browsing a web page, press and hold an image.
2. From the menu, tap **Copy image**. The selected image is then copied to the clipboard.
3. While composing or editing a note, press and hold where you want to paste the image.
4. Tap **Paste**.

Title	notes Playing an audio recording in Notes
Identifier	GUID-A82E4544-B88D-42A2-9893-34C2936DEEF3
Version	4

Playing an audio recording in Notes

After recording a meeting, you can listen to the audio clip to review key points. If you took notes while audio recording, 'timemarks' (small colored nodes in the audio bar) are added to pin your notes within the audio recording's time frame.

1. Open a note where you have recorded a voice clip.
2. Tap ► to play the audio recording.
3. Tap ►| or |◀ to go to the next or previous timemark. When you're moving from one timemark to another, you'll see a note thumbnail for a quick preview of what you noted down while recording.

You can also tap a particular item on your note to jump to its timemark and hear the audio you've recorded at that time.

Title	notes Syncing notes
Identifier	GUID-FE35094A-1AA0-4ED6-8F70-69E8A88D5FDA
Version	3

Syncing notes

You can choose whether to automatically or manually sync your notes between HTC One X and your Evernote account on the Web.

You need to log in to your Evernote account from HTC One X to start syncing notes.

1. Open the Notes app.
2. To manually sync notes, tap  on the All notes screen, and then tap **Sync**.
3. To set Notes to automatically update, tap  on the All notes screen, and then tap **Settings > Accounts & sync**.
4. Tap your Evernote account, and then customize your sync settings.

Title	voice_recorder Recording voice clips
Identifier	GUID-F759BBA0-9A7C-4B43-8EC0-17D19B426812
Version	8

Recording voice clips

Use Voice Recorder to capture information during lectures, interviews, or even to create your own audio log.

1. Open the Voice Recorder app.
2. Hold the microphone near the sound source.
3. Tap  to start recording a voice clip.

Voice Recorder can run in the background while you do other things on HTC One X, except when you open other apps that also use audio functions.

4. Tap  to stop recording.

To play back the voice clip, tap .

To see your recorded voice clips, tap . Press and hold a voice clip to see options for sharing, setting it as a ringtone, and more.

Title	connections_data Data connection
Identifier	GUID-F8BCE11D-4C74-4AA2-8C02-EF3B7FD8C82D
Version	8

Data connection

When you turn on HTC One X for the first time, it will be automatically set up to use your mobile operator's data connection (if the microSIM card is inserted).

Title	connections_data Turning the data connection on or off
Identifier	GUID-F4C1F8E3-6337-40A3-B63F-20E2AA636B19
Version	7

Turning the data connection on or off

Turning your data connection off saves battery life and money on data charges.

1. With two fingers, swipe down from the status bar to open Quick settings.
2. Tap the **Mobile data** tile to turn the data connection on and off.

If you don't have the data connection turned on and you're also not connected to a Wi-Fi network, you won't receive automatic updates to your email, social network accounts, and other synced information.

Title	connections_data Adding a new access point
Identifier	GUID-C2D01026-89B8-4D5C-A307-76A27887545F
Version	8

Adding a new access point

You can add a new Access Point Name (APN) when roaming or if you have difficulty establishing a data connection. APNs connect HTC One X to data networks for services such as mobile web browsing.

Before you add another data connection, have the access point name and settings from your mobile operator ready (including username and password if required).

1. With two fingers, swipe down from the status bar to open Quick settings.
2. If Mobile data is off, tap the **Mobile data** tile to turn it on.
3. Tap **⋮**. The Mobile network settings screen opens.
4. Tap **Access point names**.
5. On the APNs screen, tap **⋮** > **New APN**.
6. Enter the APN settings.
7. Tap **⋮** > **Save**.
8. Select the new APN on the APNs screen.

Title	connections_internet Managing data usage
Identifier	GUID-E7EB29B5-9920-4DAB-8433-6B9BA073EAA1
Version	1

Managing your data usage

If you're on a limited data allowance, it's important to keep track of the activities and apps that usually send and receive data, such as browsing the web, syncing online accounts, and sending email or sharing status updates.

Here are some other examples:

- Streaming web videos and music
- Tuning in to Internet radio
- Playing online games
- Downloading apps, maps, and files
- Refreshing apps to update info and feeds
- Uploading and backing up your files to your online storage account

- Using HTC One X as a Wi-Fi Hotspot
- Sharing your mobile data connection by USB tethering

To help you save on data usage, connect to a Wi-Fi network whenever possible and set your online accounts and emails to sync less frequently.

Title	connections_data Enabling data roaming
Identifier	GUID-4A61E694-9B86-4F2E-A195-AD81A1033441
Version	7

Turning data roaming on or off

Connect to your mobile operator's partner networks and access data services when you're out of your mobile operator's coverage area.

Using data services while roaming may be costly. Check with your mobile operator for data roaming rates before you use data roaming.

1. With two fingers, swipe down from the status bar to open Quick settings.
2. If Mobile data is off, tap the **Mobile data** tile to turn it on.
3. Tap **⋮**. The Mobile network settings screen opens.
4. Select or clear the **Data roaming** option.

Select the **Data roaming sound** option if you'd like HTC One X to play a sound so you'll know when it's connecting to a roaming network.

Title	connections_internet Keeping track of your data usage
Identifier	GUID-B3DB6E8E-72FC-4539-8006-DB20AC473C8E
Version	6

Keeping track of your data usage

Monitor your data usage to help prevent going over your monthly data allowance.

Data usage measured by HTC One X may differ from, and be less than, your actual data usage.

1. Go to Settings, and then under Wireless & networks, tap **More**.
2. Tap **Usage**.
3. On the Mobile tab, select **Limit mobile data usage** and tap **OK** to automatically disable your data connection when you reach the set limit.
4. Drag the upper LIMIT line to set your monthly data limit.
5. Select **Alert me about data usage**, and then drag the lower ALERT line to set an alert before you reach your monthly data limit.

6. Tap **Reset data usage**, and then set the day of the month when your usage cycle resets. This date is usually the start of your monthly billing cycle.
7. Drag the vertical line markers to see how much data you've used during a particular time interval.

If you're connecting HTC One X to another portable Wi-Fi hotspot, tap **⋮** > **Mobile hotspots** to restrict background data from downloading that may incur extra data fees.

Title	connections_internet Viewing data usage by app
Identifier	GUID-8171EDAD-2774-4AF3-B903-CDED9A0379D5
Version	2

Viewing the data usage of apps

1. Go to Settings, and then under Wireless & networks, tap **More**.
2. Tap **Usage**.
3. On the Mobile tab, drag the vertical line markers to see how much data you've used during a particular time interval.
4. Scroll down the screen to see a list of apps and their data usage info.
5. Tap an app to see more details.

Title	connections_wifi Wi-Fi
Identifier	GUID-1AA0B89B-37AF-4193-A997-81F029B5C7D9
Version	5

Wi-Fi

To use Wi-Fi, you need access to a wireless access point or “hotspot”.

The availability and strength of a Wi-Fi signal varies depending on objects the Wi-Fi signal has to pass through (such as buildings or a wall between rooms).

Title	connections_wifi Turning Wi-Fi on and connecting
Identifier	GUID-FE9BBDA9-1B3A-469A-8E58-1EE8AB2E372A
Version	8

Turning Wi-Fi on and connecting to a wireless network

1. With two fingers, swipe down from the status bar to open Quick settings.
2. Tap the **Wi-Fi** tile to turn the Wi-Fi connection on.
3. Tap **⋮**. Detected Wi-Fi networks will be listed.

If the wireless network that you want is not listed, tap **⋮** > **Add network** to manually add it.

4. Tap the Wi-Fi network you want to connect to. If you selected a secured network, you'll be asked to enter the network key or password.
5. Tap **Connect**. You'll see the Wi-Fi icon  in the status bar when connected.

The next time HTC One X connects to a previously accessed secured wireless network, you won't be asked to enter the key or other security information again.

Version	6

Connecting to a different Wi-Fi network

1. With two fingers, swipe down from the status bar to open Quick settings.
2. If Wi-Fi connection is off, tap the **Wi-Fi** tile to turn it on.
3. Tap **⋮**. Detected Wi-Fi networks will be listed.

To manually scan for available Wi-Fi networks, tap **⋮** > **Scan**.

4. Tap a Wi-Fi network to connect to it.

Title	connections_wifi Logging into a public Wi-Fi network automatically (WISPr)
Identifier	GUID-8F4CF9D4-6356-4C24-AD04-8DD2A55876A6
Version	2

Logging into a public Wi-Fi network automatically (WISPr)

You can set HTC One X to automatically log into a public Wi-Fi network that you regularly use. This saves you the trouble of going through the Wi-Fi provider's web authentication every time you connect to their Wi-Fi network. Just add your login credentials to the WISPr (Wireless Internet Service Provider roaming) settings.

The access point of the Wi-Fi network needs to support the WISPr web portal. Consult the Wi-Fi provider for details.

1. With two fingers, swipe down from the status bar to open Quick settings.
2. If Wi-Fi connection is off, tap the **Wi-Fi** tile to turn it on.
3. Tap **⋮**. Detected Wi-Fi networks will be listed.
4. Tap **⋮** > **Advanced**.
5. Under WISPr settings, select the **Auto login** option.
6. Tap **WISPr account settings** > **Add a new account**.
7. Tap each item onscreen to enter the service provider name, your login name (with the full domain name), and password.

8. Tap  > **Save**
9. Turn Wi-Fi on, and then connect to the public Wi-Fi network.

- If you have access to several public Wi-Fi networks, you can add up to five sets of login credentials to the WISPr accounts list.
- In the WISPr accounts list, press and hold an account to remove or edit it.

Title	connections_vpn Connecting to a virtual private network (VPN)
Identifier	GUID-311D0878-6B63-44EC-8FC5-53B8519EEE37
Version	5.1.1

Connecting to a virtual private network (VPN)

Add virtual private networks (VPNs) so you can connect and access resources inside a local network, such as your corporate network.

Before you can connect to your organization's local network, you may be asked to:

- Install security certificates
- Enter your login credentials
- Download and install a required VPN app on HTC One X

Contact your network administrator for details. Also, HTC One X must first establish a Wi-Fi or data connection before you can start a VPN connection.

Title	connections_vpn Adding a VPN connection
Identifier	GUID-C75D37D7-AA48-4863-8C2D-472A4E283AA5
Version	6

Adding a VPN connection

You must first set a lock screen PIN or password before you can use credential storage and set up the VPN.

1. Go to Settings, and then under Wireless & networks, tap **More**.
2. Tap **VPN** >  > **Add VPN profile**.
3. Enter the VPN settings and set them up according to the security details your network administrator gave you.
4. Tap **Save**.

Title	connections_vpn Connecting to a VPN
Identifier	GUID-A6D6E4EA-95AC-4DE4-9BB5-4D211458BF72
Version	6

Connecting to a VPN

1. Go to Settings, and then under Wireless & networks, tap **More**.
2. Tap **VPN**.
3. Tap the VPN that you want to connect to.
4. Enter your log in credentials, and then tap **Connect**. When you're connected, the VPN connected icon  appears in the notification area of the status bar.

You can then open the web browser to access resources such as your corporate network intranet.

Title	connections_vpn Disconnecting from a VPN

Title	connections_internet_passthrough Using your phone as a wireless router
Identifier	GUID-62E88BB8-1A40-4DE8-8740-740F5F3E131C
Version	15

Using HTC One X as a wireless router

Share your data connection with other devices by turning HTC One X into a wireless router.

- Make sure the data connection is turned on.
- You must have an approved data plan associated with your account from your mobile service provider to use this service. Devices connected to your Wi-Fi Hotspot use data from your subscribed data plan.

1. Go to Settings, and then under Wireless & networks, tap **More**.
2. Tap **Mobile network sharing > Portable Wi-Fi hotspot settings**.
3. Enter a router name or use the default router name.

4. Choose the type of security and set the password (key) for your wireless router. If you selected **None** in Security, you don't need to enter a password.

The password is the key other people need to enter on their device so they can connect and use HTC One X as a wireless router.

5. Select the **Portable Wi-Fi hotspot** option to turn on the wireless router.

HTC One X is ready to be used as a wireless router when you see  on the status bar.

To help minimize security risks, use the default security settings and set a strong and unique password.

Title	connections_usb_tethering Sharing data connection with USB tethering
Identifier	GUID-3BE0F528-F346-452A-BC11-83D7B9B5B654
Version	15

Sharing your phone's Internet connection by USB tethering

No Internet connection available for your computer? No problem. Use the data connection of HTC One X to connect to the Internet.

- To make sure that the USB drivers for HTC One X are up-to-date, install the latest version of HTC Sync Manager on your computer.
- Make sure a SIM card with a data plan is inserted in HTC One X.
- You may need to have USB tethering added to your data plan, and it may incur additional cost. Contact your mobile service provider for details.
- Make sure that mobile data is turned on.

1. Go to Settings, and then under Wireless & networks, tap **More**.
2. Tap **Mobile network sharing > USB network setting > USB tethering**.

If you often switch between USB tethering and Internet pass-through, select **Smart network sharing** to automatically turn on the connection type you need whenever you connect HTC One X with your computer.

3. Connect HTC One X to your computer using the provided USB cable. The next time HTC One X connects to a computer, it will remember your settings.

Title	connections_internet_passthrough Connecting to Internet through computer
Identifier	GUID-35B3AFE1-0FB8-4632-BBC0-E27D3E3F3BFE
Version	15

Connecting to the Internet through a computer

If you temporarily don't have Internet access on HTC One X, you can still go online by using your computer's Internet connection.

- To make sure that the USB drivers for HTC One X are up-to-date, install the latest version of HTC Sync Manager on your computer.
- If your phone can't connect to the Internet via your computer's Internet connection, you may need to configure your computer's firewall to allow this type of connection. To find out how, refer to your operating system or security software help.
- If your computer connects to the Internet via PPP (e.g. Dial UP, xDSL, or VPN), Internet Pass-through will only support TCP protocol.

1. Go to Settings, and then under Wireless & networks, tap **More**.
2. Tap **Mobile network sharing > USB network setting > Internet pass-through**.

If you often switch between USB tethering and Internet pass-through, select **Smart network sharing** to automatically turn on the connection type you need whenever you connect HTC One X with your computer.

3. Connect HTC One X to your computer using the provided USB cable. The next time HTC One X connects to a computer, it will remember your settings.

Title	connections_printer Printing
Identifier	GUID-8BB9470F-8025-4514-95FF-B18E116AF5C6
Version	9

Wi-Fi printing

Connect HTC One X to a supported printer via Wi-Fi and print out documents, email, photos, and more.

Both printer and HTC One X must be turned on and connected to the same local network. Connect HTC One X to the local network using Wi-Fi. To learn how to connect the printer to a local network, refer to your printer user guide.

1. While in an app (such as Mail or Calendar), open the item you want to print.
2. Tap  > **Print** (or **More > Print**).
3. On the Print screen, tap the printer you want to use.
4. If there's more than one page to print, set the page range that you want.

Tap **Advanced** to set the page size, print layout, and page orientation, and choose if you want to print in color or black and white.

5. Tap **Print**.

You can check the printing details by opening the Notifications panel, and then tapping the item you're printing.

Title	connections_printer Printing a photo

Version	9

Connecting a Bluetooth headset

You can listen to music over a Bluetooth stereo headset, or have hands-free conversations using a compatible Bluetooth headset.

- To listen to music with your headset, the headset must support the A2DP Bluetooth profile.
- Before you connect your headset, make it discoverable so HTC One X can find it. Refer to your headset manual for details.

1. With two fingers, swipe down from the status bar to open Quick settings.
2. If Bluetooth is off, tap the **Bluetooth** tile to turn it on.
3. Tap **⋮**. The Bluetooth screen opens.
4. If you don't see your headset listed, tap **⋮** and then tap **Scan** to refresh the list.
5. When you see the name of your headset in the Available Devices section, tap the name. HTC One X pairs with the headset and the headset connection status is displayed in the Paired Devices section.

If automatic pairing fails, enter the passcode supplied with your headset.

When the Bluetooth headset is connected to HTC One X, the Bluetooth connected icon  is displayed in the status bar.

Title	bluetooth Reconnecting a headset
Identifier	GUID-59C0020B-099F-41E3-BACA-CB03BA694885
Version	7

Reconnecting a Bluetooth headset

Normally, you can easily reconnect your headset by switching on Bluetooth on HTC One X, and then turning on the headset.

However, you might have to connect manually if your headset has been used with another Bluetooth device.

Make sure that the headset is discoverable. Refer to the headset manual for details.

1. With two fingers, swipe down from the status bar to open Quick settings.
2. If Bluetooth is off, tap the **Bluetooth** tile to turn it on.
3. Tap **⋮**. The Bluetooth screen opens.
4. Tap the headset's name in the Paired Devices section.
5. If prompted to enter a passcode, try 0000 or 1234, or consult the headset documentation to find the passcode.

If you still cannot reconnect to the headset, follow the instructions in [Unpairing from a Bluetooth device](#) on page 223, and then follow the steps under [Connecting a Bluetooth headset](#) on page 222.

Title	bluetooth Unpairing from a Bluetooth device

Version	8

Unpairing from a Bluetooth device

1. With two fingers, swipe down from the status bar to open Quick settings.
2. If Bluetooth is off, tap the **Bluetooth** tile to turn it on.
3. Tap **⋮**. The Bluetooth screen opens.
4. In the Paired devices section, tap  next to the device to unpair.
5. Tap **Unpair**.

Title	bluetooth Where sent information is saved
Identifier	GUID-1918FF50-23CA-4AE7-8745-CB8FDDDDAF7C
Version	6

Where sent information is saved

When you send information using Bluetooth, the location where it's saved depends on the type of information and the receiving device.

If you send a calendar event or contact, it is normally added directly to the corresponding application on the receiving device.

If you send another file type to a Windows computer, it is normally saved in the Bluetooth Exchange folder within your personal document folders.

- On Windows XP, the path may be: C:\Documents and Settings\[your username]\My Documents\Bluetooth Exchange
- On Windows Vista, the path may be: C:\Users\[your username]\Documents
- On Windows 7, the path may be: C:\Users\[your username]\Documents\Bluetooth Exchange Folder
- On Windows 8, the path may be: C:\Users\[your username]\Documents

If you send a file to another device, the saved location may depend on the file type. For example, if you send an image file to another mobile phone, it may be saved in a folder named "Images".

Title	bluetooth Receiving information using Bluetooth
Identifier	GUID-3A0E9DF3-7321-4764-A1A3-19414A5AE92C
Version	10

Receiving files using Bluetooth

HTC One X lets you receive various files with Bluetooth, including photos, music tracks, contact info, calendar events, and documents such as PDFs.

Refer to the device's documentation for instructions on sending information over Bluetooth.

1. With two fingers, swipe down from the status bar to open Quick settings.
2. If Bluetooth is off, tap the **Bluetooth** tile to turn it on.
3. Tap **⋮**. The Bluetooth screen opens.
4. Tap the Bluetooth name of your device near the top of the screen to make HTC One X visible to nearby Bluetooth devices.

5. On the sending device, send one or more files to HTC One X.
6. If asked, accept the pairing request on HTC One X and on the sending device. You may also be prompted to enter the same passcode or confirm the auto-generated passcode on both devices.

You'll then get a Bluetooth authorization request.

7. Tap **Pair**.
8. When HTC One X receives a file transfer request notification, slide the Notifications panel down, tap the incoming file notification, and then tap **Accept**.
9. When a file is transferred, a notification is displayed. Slide the Notifications panel down, and then tap the relevant notification.

When you open a received file, what happens next depends on the file type:

- Media files and documents are usually opened directly in a compatible app. For example, if you open a music track, it starts playing in the Music app.
- For a vCalendar file, choose the calendar where you want to save the event, and then tap **Import**. The vCalendar is added to your Calendar events.
- For a vCard contact file, you can choose to import one, several, or all of those contacts to your contacts list.

Title	nfc Sharing content with Android Beam
Identifier	GUID-9992FC61-434C-4655-9AFB-009DC385F198
Version	6

Sharing content with NFC

With built-in NFC (near field communication) on HTC One X, you can share content to another NFC-capable mobile device in an instant. Beam webpages, photos, contact information, and more by holding HTC One X and the other device back to back.

You can also use NFC for contactless payment. Availability of NFC payment depends on when your mobile operator launches this service. Contact your mobile operator for details.

Title	nfc Turning NFC on
Identifier	GUID-EC5C3150-8F11-47AF-93FE-DEC1450389D3
Version	4

Turning NFC on or off

1. Go to Settings, and then under Wireless & networks, tap **More**.
2. Select or clear the NFC option.

Title	nfc Beaming content
Identifier	GUID-C03C1CC2-3200-4263-A965-149A5E2B19ED
Version	5

Beaming content

Make sure that both devices are unlocked and have NFC turned on. If the other device has an Android Beam™ option, make sure it is also turned on.

1. While viewing the content that you want to share, hold HTC One X and the other device back to back.

Different phones may require different positions for NFC to operate correctly. Holding the two phones back to back may not always work. Experiment by slightly moving the phones until a connection is made.

When the devices connect, you'll hear a sound and both devices will vibrate slightly.

2. Tap the screen.

The shared content appears on the other screen. For some items that you've shared (such as contact information), additional instructions on how to save the item will appear on the receiving device.

Version	8

Setting a screen lock to help protect HTC One X

Help protect your personal information and help prevent others from using HTC One X without your permission.

Choose to set a screen lock pattern, numeric PIN, or other means of securing your phone. You'll be asked to unlock the screen every time HTC One X is turned on or when it's idle for a certain period of time.

1. Go to Settings, and then tap **Security**.
2. Tap **Screen lock**.
3. Select a screen lock option and set up the screen lock.
4. Tap **Lock phone after**, then specify the idle time before the screen is locked.

You can also clear **Make pattern visible** or **Make passwords visible** if you don't want your screen lock to display as you enter it onscreen.

Title	security Forgot your screen lock pattern?
Identifier	GUID-7EDB756B-2442-447E-B655-37B3370FEDB1
Version	4

Forgot your screen lock pattern?

If you've forgotten your screen lock pattern, you have up to five attempts to try and unlock HTC One X.

If this fails, you can unlock HTC One X by entering your Google Account user name and password.

1. On the unlock screen, enter your lock pattern.
2. After the fifth attempt, when you're asked to wait for 30 seconds, tap **OK**.
3. If the display goes off, press the **POWER** button to turn the display back on, and then unlock the screen.
4. Tap the **Forgot pattern?** button when it appears.
5. Enter your Google Account name and password, and then tap **Sign in**. You'll then be asked to create a new screen lock pattern. If you no longer want to do so, tap **None** or press .

Title	settings Checking your phone's HTC Sense version
Identifier	GUID-3F0BA03D-0C1B-4531-B598-FF4562EF19C6
Version	10.1.1

Checking your phone's HTC Sense version

You can view the HTC Sense version, as well as other information about your phone.

1. Go to **Settings**, and then tap **About**.
2. Tap **Software information** to view the HTC Sense version.

Title	settings Navigating your phone with TalkBack
Identifier	GUID-0445A09D-1409-4914-B4B9-6640CC293043
Version	1

Navigating HTC One X with TalkBack

Use TalkBack if you need to navigate HTC One X by spoken feedback. When you touch the screen, HTC One X vibrates and gives you an audible response so you know what you are touching.

Title	settings Turning TalkBack on
Identifier	GUID-A1A9E7AD-EDF0-479C-ABF6-EAA15E4F4979
Version	2

Turning TalkBack on

1. Go to Settings, and then tap **Accessibility**.
2. Tap **TalkBack**, and then tap the **On/Off** switch.
3. Read the TalkBack disclaimer and then tap **OK**. You'll be prompted to enable Explore by touch, which provides an audible description of what you're touching on the screen.

A short tutorial explaining how to use TalkBack will begin playing after you turn on TalkBack.

TalkBack works best if you turn off auto-rotate and turn on Explore by touch.

Title	controls TalkBack gestures
Identifier	GUID-1CCD0693-21A6-41BF-B861-F4E18A97EE03
Version	1

Using TalkBack gestures

When TalkBack is turned on and the Explore by touch setting is selected, the regular touch gestures are replaced by the TalkBack gestures.

HTC gestures such as 3-finger swiping may not be available when TalkBack gestures are enabled.

Do one of the following:

Open an item	1. Drag your finger on the screen to find and select the item. 2. Double-tap anywhere on the screen to open the item.
Move an item	1. Drag your finger on the screen to find the item. 2. Double-tap anywhere on the screen, but don't lift your finger on the second tap. 3. Drag the item to a new spot and then lift your finger.
Scroll through a screen	Use two fingers to swipe up, down, left or right.
Unlock the lock screen	Use two fingers to swipe up from the bottom of the screen.
Open the Notifications panel	Use two fingers to swipe down from the top of the screen.

You can change the double-tap speed in **Settings > Display, gestures & buttons**.

Title	controls Assigning TalkBack shortcuts
Identifier	GUID-F5AE408B-6C20-4C36-8427-140885A7A828
Version	3

Assigning TalkBack shortcuts

TalkBack has customizable gestures that can be used to open the Notifications panel, view recent apps, access TalkBack controls, and more.

The steps below are described using the regular gestures. Use the corresponding TalkBack gestures if you already have TalkBack turned on.

1. Go to Settings, and then tap **Accessibility**.
2. Tap **TalkBack**, and then tap **⋮ > Settings > Manage gestures**.
3. Tap any of the shortcut gestures, and then select an action.

Title	controls Using TalkBack context menus
Identifier	GUID-3AAEA7FB-FF68-4B7A-ABC8-03EF36C52D50
Version	1

Using TalkBack context menus

TalkBack has context menus for controlling continuous reading and global TalkBack controls. These menus can be accessed using TalkBack shortcut gestures.

1. Turn TalkBack on.
2. Do one of the following:
 - To open the continuous reading menu, use one finger to swipe up and right in one continuous movement.
 - To open the global context menu, use one finger to swipe down and right in one continuous movement.

If you already changed the TalkBack shortcut gestures, check your TalkBack settings for the appropriate gesture.

3. Press and hold anywhere on the screen.
4. Drag your finger around the screen to explore the options.

To cancel an action, drag your finger to your starting position.

Title	settings Changing the speed of the audible response
Identifier	GUID-9753B9AF-EF49-42A2-BC05-08D83E6B1E94
Version	2

Changing the TalkBack reading speed

The steps below are described using the regular gestures. Use the corresponding TalkBack gestures if you already have TalkBack turned on.

1. Go to Settings, and then tap **Accessibility**.
2. Tap **Text-to-speech output** > **Speech rate**.
3. Select a speech rate.

You can test the speech rate by tapping **Listen to an example**.

Title	settings TalkBack language settings
Identifier	GUID-FCE84A38-C09F-4AF8-8469-5C45DEF45B45
Version	2

TalkBack language settings

1. Go to Settings, and then tap **Accessibility**.
2. Tap **Text-to-speech output** > **Google Text-to-speech Engine**, and do one of the following:

Select a different language	Tap Language .
Install a language	Tap Install voice data and tap Download next to the language you want. After the language is downloaded and installed, press < , and then tap Language .

3. Select the language you want to use.

Not all languages are supported.
